

RANDALL LIBRARY PRELIMINARY DESIGN SERVICES

STOW, MA

Workshop C
10/28/2021

designLAB architects

G2 G2 COLLABORATIVE
LANDSCAPE ARCHITECTURE

AGENDA

- **Schedule and Process [5 Mins]**
- Community Outreach Summary [10 Mins]
- Review Refined Concept Design Strategies [30 Mins]
- Review Preliminary Estimates [15 Mins]
- Discuss Proposed Agenda for November Public Forum [15 min]
- Next Steps [10 Mins]

Schedule

Randall Library
Preliminary Workplan
DRAFT

Community Outreach

Imagining the Future of Randall Library - We Want to Hear from You!

Fall 2021

VISION

Generally, what do you imagine the future of the Randall Library building looks like?

RESOURCES

What types of resources would you like to see in the Library that do not exist now?

PROGRAM

What types of library programs have you attended in the past? What types of library programs would you like to see offered?

Instructions:

As the The Library Building Committee considers strategies to re-imagine and renovate Randall Library, we want to hear from you! The Building Committee plans to consider this feedback as we develop potential renovation strategies over the next several months.

On this board, please:

1. Use post-it notes (as many as you'd like) to share your thoughts on the prompts above

Instructions:

As the The Library Building Committee considers strategies to re-imagine and renovate Randall Library, we want to hear from you! The Building Committee plans to consider this feedback as we develop potential renovation strategies over the next several months.

On this board, please:

1. Use (3) sticky dots to identify which types of spaces you'd like to see in a renovated Randall Library (you can put all (3) sticky dots on one space, or spread them out!)
2. Use the space to the right of each image to share why these spaces resonate with you on a post-it note.
3. Share thoughts on a post-it note on other types of spaces you'd like to see in a renovated Randall Library and why.

Imagining the Future of Randall Library Building - We Want to Hear from You!

Fall 2021

1 Generally what do you image the future of the Randall Library building looks like?

A. building that respects the historic building, but provides modern amenities, including meeting spaces, a focus on children's areas, and modern tech resources

2. What types of resources would you like to see in the Library that do not exist now?

A. More modernized technology, more private meeting space for small and large groups, more comfortable seating.

3. What types of library programs have you attended in the past? What types of library programs would you like to see offered?

A. Most programs attended are related to children/kids programs, but many people would like to see more adult lectures and groups.

6. Are there any other types of spaces you would like to see in a renovated Randall library, please identify them here.

A. Outdoor area for multiple programs. More staff space. Quiet study and work rooms.

7. What (or spaces) in the current configuration of the Randall Library do you enjoy the most? Please share why.

A. The historical area of the building, and the childrens spaces.

Imagining the Future of Randall Library Building - We Want to Hear from You!

AGENDA

- Schedule and Process [5 Mins]
- Community Outreach Summary [10 Mins]
- **Review Refined Concept Design Strategies [30 Mins]**
- Review Preliminary Estimates [15 Mins]
- Discuss Proposed Agenda for November Public Forum [15 min]
- Next Steps [10 Mins]

Guiding Principles

- Provide an **accessible** and **inclusive** library experience for all
- Create an **integrated architectural experience** between historic building and renovated 1970's addition and/or new addition
- Provide a **variety** of program spaces that best meet the needs of both **existing and new patrons**
- Address all building envelope, building system and maintenance issues
- Create a more **welcoming landscape** and entry experience

AGENDA

- Schedule and Process [5 Mins]
- Community Outreach Summary [10 Mins]
- Review Refined Concept Design Strategies [30 Mins]
- **Review Preliminary Estimates [15 Mins]**
- Discuss Proposed Agenda for November Public Forum [15 min]
- Next Steps [10 Mins]

Option A - Reuse

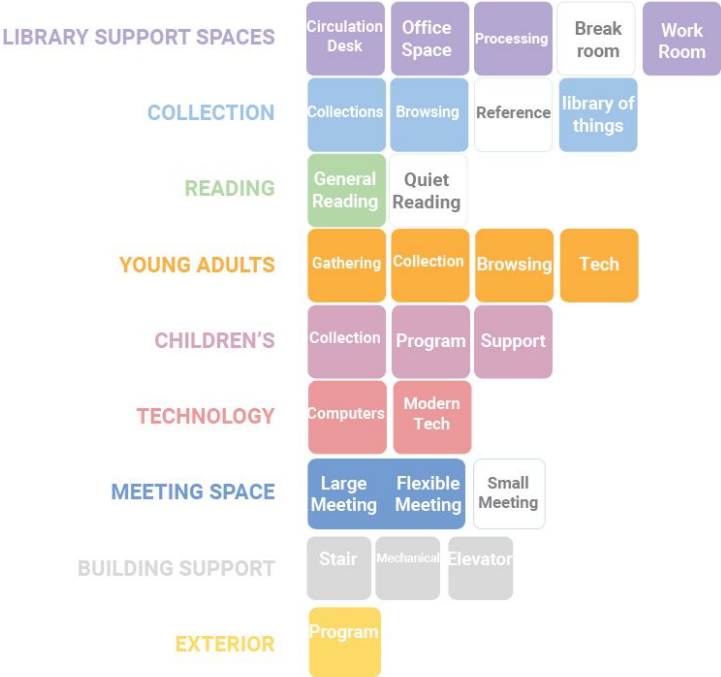

Option B- Add-on

Option C- Re-build

Option A - Reuse

Option B- Add-on

Option C- Re-build

Option A: Reuse

- Historic building and 1975 addition do not fundamentally change: **same footprint and square footage**
- A new fire protection system (sprinkler) is not necessitated by code.
- **Existing septic system** is reused
- Entry sequence from street is improved though fundamentally does not change
- Least expensive, but realizes fewest programmatic goals and limited opportunity for big impact 'change'
- Renovation results in a 'patchwork' approach to building systems

Option B: Add-on

- Realizes the majority of program goals, though not all
- Significant (and complex) structural modifications to 1975 addition to create additional square footage on main level and new roof configuration
- New sprinkler system and new septic system to support increase in size and use
- Low floor-to-ceiling height in lower level of 1975 addition (double-height space at mezzanine is eliminated to increase square footage above).
- Similar to A, renovation results in a 'patchwork' approach to building systems

Option C: Re-build

- Achieves **all program goals** and spaces
- New addition construction facilitates the most flexibility, efficiency, and maintainability in both building systems and envelope
- New sprinkler system, new septic system to support increase in size and use
- Higher Ceilings on lower level
