Subject: Firearms Business Zoning Feedback
Date: Friday, March 15, 2024 9:22:49 AM

Good morning,

As a Stow resident, I would like to provide some short feedback to the planning board via email, since I will be unavailable for the forum on 3/19/24.

The Firearms Business Zoning Bylaw being proposed in order to properly and carefully vet firearms businesses seeking to locate/relocate to the area is a thoughtful and effective approach to protecting our citizens while simultaneously supporting small businesses. While I myself may not be a fan of allowing any firearms businesses in Stow at all, I recognize that there are differing opinions on this issue, and that this proposed bylaw is a good compromise between two different schools of thought.

In short, I am in support of this proposed Firearms Business Zoning Bylaw, and I appreciate the Planning Board's dedication to its purpose within Stow.

Thank you,
Sunny Richardson
