**Attachments:** RENDER-PARCEL 38.png; RENDER-137 HARVARD.png; Lot 3 and 4 - Progress Contours.png; Lot 2 - Progress Contours.png

Hello Jesse,

Upon review of additional storm events following the mitigation measures provided by the applicant within the area of the gas-service, there will not be any additional plan updates at this time.

Attached please find individual copies of the two-contours for each respective property along with a rendering of the surface areas based upon the record plan and follow-up field observations.

137 Harvard - The gas-service area (approximately 0.04 acres) has been stabilized and all lawn areas have been returned to their existing grades and seeded in a general manner following the work associated with upgrades of utilities upon purchase of the dwelling from Ms. Desmond.

Lot 2 (Vacant Lot) - The area disturbed from tree removal (approximately 0.50 acres) has begun to revegetate itself over two-growing seasons. There are also no apparent alterations to existing contours from this activity.

I would like to schedule a time with you later today to discuss these two separate properties.

Regards,

Hello Jesse,

Yes, we will have an updated plan, spoke to the client yesterday and he said that Foresite will be providing us with the 2'-contours.

Hi Rich,

Can you give me some indication of what you plan to have for the next Public Hearing on September 21<sup>st</sup>? I recall that there was going to be an updated plan submitted to the Board? The Board would want to have time for Sue's review. So a week prior if possible.

Let me know?

Thank you,

Jesse Steadman
