Subject: Input re: Lower Village

Hi Jesse and Malcolm,

Given that you have a public forum coming up regarding plans for Lower Village, I am forwarding a message that came to our office on to you. The caller didn't leave a name or number, but expressed concern about the concrete islands in use in Lower Village near the shopping plaza. He considers them dangerous, and thought it would only be worse in winter. He said he had already seen a car run over one of the islands.

If this information should go to someone else, I'll be happy to forward it.

Best,
Phoebe
