Hi Barbara,

We will ask that all machines are not parked near lot 2 for the weekend.

Hope everyone enjoys the concert.

Glad we can help.

Subject: Possible to park yellow machines in a different place this weekend?

Hello Chuck,

Thank you for taking time a few weeks ago to walk your property off Sudbury Road that abuts our property. It is good to learn what will be going on back there, seeing how the proposed houses fit the actual property — a different experience from that gleaned from the plot plans alone.

I had a favor to ask. Would it be possible to see if the workers could park the big, yellow machines in a different place just this weekend, as I am hosting a large gathering of the chorus I direct on Sunday, June 6. We have not met in person since our last concert, March 8, 2020.

Our yard is particularly lovely now, and we will be meeting on the slope, looking down toward the patio and the back of our property. As you know, there is a hole in the vegetation in that back corner, where the new leach field is located. The workers park their big machines right in that place, so that even with the increased foliage at the moment, you cannot avoid seeing them parked there.

If it is not too inconvenient, could you please ask if they could part those big vehicles to either side of that hole, so that they are not so visible to the group gathered on our yard, at least for this weekend?

Thank you very much. I appreciate it and hope it is not too much of a bother for them.

Sounds as if it will be rain-free on Sunday, but very hot. Still, it will be so good to get to sing in person, rather than over zoom, and to do so in a lovely space is an extra bonus.
