Hi, Stow Planning Board and Department -

I hope you are doing well. I want to bring your attention to the latest additions to the unsightly median in front of my house. Two yellow reflectors were added to each end today. The need for additional reflectors just proves that the medians do not serve their intended purpose. Drivers do not slow down because of them. In fact, drivers hit them with enough regularity that the Road Department found the need to attempt to increase their visibility, making the medians an even bigger eyesore than they were before.

The Town really should lower the speed limit like neighboring towns have done and remove the ugly medians that just pose as additional traffic hazards throughout the Lower Village.

Thank you for your time and consideration,

- Leigh Hilderbrandt  
196 Great Rd, Stow
