I'm requesting a waiver for a site plan review for my special permit due to the fact that all work that is planned is tenant fit-up inside the buildings. These tenants will have little to no impact on the outside of the building.

Thanks

I'm requesting a waiver for a Traffic Study review for my special permit due to the fact that all work that is planned is tenant fit-up inside the buildings. We are adding 15 units for artist which are mostly part time and 8 gun people which again is most are part time. So my feeling is that most of the free parking space will handle the addition cars.

Thanks
