4. that the Board of Appeals grants a special permit as provided in Section 9.2.

3.9.6.2 Guidelines for Review of Extensions, Alterations or Changes to Preexisting, Nonconforming Uses and Structures: Recognizing the need to provide guidelines for determining relative impacts upon the Town and the immediate neighborhood from an expansion, alteration or change of preexisting nonconforming uses and structures, and recognizing the basis and consistent principles of zoning with respect to minimizing nonconforming uses and structures, the following shall apply to the review of special permit applications under this Section:

1. the Board of Appeals shall encourage extensions, alterations or changes to nonconforming structures and uses toward greater, if not complete, conformance with the provisions of the Zoning Bylaw and to reduce the degree of nonconformity;
2. the Board of Appeals shall not encourage the expansion of a nonconforming structure or use as measured by either the:
 - a) amount of floor space or land area used, or
 - b) volume of activity, including but not limited to an increase in the intensity of use and/or a change in the nature or purpose of the use;
3. the Board of Appeals shall prohibit the expansion of nonconforming structures and uses unless there will be no demonstrable adverse impacts on abutting properties and those properties that generally characterize the neighborhood or locus within which the expansion is sought, and;
4. the Board of Appeals shall not encourage the expansion of nonconforming structures and uses if the expansion will negatively impact the Town of Stow's ground or surface waterbodies.

3.9.6.3 Table of Presumptively Not More Detrimental Extensions, Alterations, or Changes to Preexisting, Nonconforming Uses and Structures:

An extension, alteration or change to a lawfully preexisting nonconforming use or structure shall be presumed not to be substantially more detrimental to the neighborhood if the guidelines of Section 3.9.6.2 are considered and if the extension, alteration or change also is in compliance with the following:

TABLE OF PRESUMPTIVELY NOT MORE DETRIMENTAL EXTENSIONS, ALTERATIONS, OR CHANGES TO OTHER THAN SINGLE OR TWO-FAMILY RESIDENTIAL DWELLINGS

Issue	Presumptively Allowable Changes, Alterations, or Extensions
If maximum floor area ratio requirements are exceeded and/or minimum open space requirements are not met.	The extension, alteration, or change does not: 1) increase the floor area ratio requirements; 2) decrease the existing floor area ratio and/or; 3) results in an increase of the open space requirements of Section 4.4.
If the structure or use exceeds current parking or loading area requirements.	The requirements of Section 7 of the Zoning Bylaw are met or if the Board of Appeals determines that the existing use and proposed expansion or site conditions do not warrant the number of parking spaces required by Section 7.3.3.
If the structure or use exceeds, or is in violation of, or violates any other provision of the Zoning Bylaw.	The extension, alteration, or change meets the guidelines specified in Section 3.9.6.2 above.

3.9.7 Alteration, Reconstruction, Extension or Structural Changes to Preexisting Nonconforming Single and Two-Family Residential Structures.

3.9.7.1 As provided for in G. L. c. 40A sec. 6, a nonconforming single or two-family dwelling or structure accessory thereto may be altered, reconstructed, extended or otherwise structurally changed provided that:

1. the proposed alteration, extension or structural change itself conforms to the requirements of the present Bylaw, and does not intensify any existing non-conformities or result in any additional non-conformities, in which event the Building Inspector may issue a building permit and an application to the Board of Appeals need not be made; or
2. the proposed alteration, extension or structural change itself does not conform to the requirements of the present Bylaw, and does intensify existing non-conformities or results in additional non-conformities, in which event a Petition for Special Permit must be made to the Board of Appeals, and the Board of Appeals must find that:
 - a) there is no substantial increase in the nonconforming nature of said structure; and
 - b) such reconstruction, alteration or extension will not be substantially more detrimental to the neighborhood than the existing nonconforming structure or use.

3.9.7.2 In determining the meaning of the phrases "increase the nonconforming nature of said structure" and "substantially more detrimental to the neighborhood," the following shall apply to the review of Special Permit Petitions subject to this provision to alter,

reconstruct, extend or structurally change a preexisting nonconforming single- or two-family residential structure:

1. The Board of Appeals must make a determination as to the particular respect or respects in which the existing structure or lot does not conform to the requirements of the present Bylaw;
2. Should the Board of Appeals conclude that the proposed change would substantially increase the nonconforming nature of the structure or lot, the applicant will not be entitled to the issuance of a special permit;
3. If the Board of Appeals determines, that the proposal will not substantially increase the nonconforming nature of the structure or the lot, the applicant will also be required to show that the change will not be substantially more detrimental than the existing nonconforming structure or use to the neighborhood;
4. If the Board of Appeals determines that the proposal will be more substantially detrimental to the neighborhood, the special permit sought will be denied unless the Board of Appeals determines that a special permit can be approved with conditions that would make the change substantially not more detrimental, in which case the Board of Appeals may approve a special permit with such conditions.
5. For the purposes of this Section, determination of "substantially more detrimental to the neighborhood" shall include consideration of and impacts to, the general and immediate neighborhood from the resulting height, building coverage, impervious coverage, and width of the altered, reconstructed, extended or structurally changed structure. Additionally, a determination whether an altered, reconstructed, extended or structurally changed structure will be "substantially more detrimental to the neighborhood" shall include the resulting impacts to views and vistas from abutting properties and public and private ways, increase in traffic, noise, surface water runoff and related site planning issues.

3.10 Table of Principal Uses

3.10.1 Provisions Applicable to Table of Principal Uses - No land, STRUCTURE or BUILDING shall be used except for the purposes permitted in the district as set forth in this Bylaw and further indicated on the Table of Principal Uses. Each use set forth in the principal use column shall be subject to any conditions or limitations that are set forth in this Bylaw and in the Table of Principal Uses. If there is a discrepancy between the Table of Principal Uses and the text of this Bylaw, the provisions set forth in the text of this Bylaw shall take precedent.

3.10.1.1 A use listed in the Table of Principal Uses is permitted in any district denoted by the letter "Y" and is not permitted in any district denoted by the letter "N". If denoted by the letters "SPA", "SPP" or "SPS", the use is permitted only if the designated Special Permit Granting Authority grants a special permit as provided herein and makes such specific findings as may be required by the Bylaw in respect of such use. For the purposes of the Table of Principal Uses, "SPA" shall mean a special permit authorized by the Board of Appeals; "SPP" shall mean a special permit authorized by the Planning Board; and "SPS" shall mean a special permit authorized by the Board of Selectmen.

3.10.1.2 Site plan approval in accordance with Section 9.3 is required for a use where the letter "R" appears and is not required where the letters "NR" appear.

3.10.1.3 A special permit is required for any increase in intensity of a site or use for which a special permit is required, except as to lawful pre-existing NON-CONFORMING USES.

3.11 Wireless Service Facility

3.11.1 Objectives

This Section permits the construction and use of Wireless Service Facilities within Stow, regulates their impacts and accommodates their location and use in a manner intended to:

- A. Protect the scenic, historic, natural and man-made resources of the town;
- B. Preserve the general safety, welfare and quality of life in the community;
- C. Protect property values;
- D. Protect the environment;
- E. Guide sound development and encourage the most appropriate use of the land;
- F. Encourage the use of certain existing Towers and structures;
- G. Limit the total number and height of such facilities to what is essential to meet the need;
- H. Promote shared use of facilities where appropriate to reduce the need for new facilities, and
- I. Comply with the Communication Act of 1936 as amended by the Federal Telecommunications Act of 1996.

3.11.2 Applicability

- A. No Wireless Service Facility shall be ERECTED or installed except in compliance with the provisions of this Section.
- B. The requirements of this section shall apply to all Wireless Service Facilities, except where Federal or State Law or Regulations exempt certain users or uses from all or portions of the provisions of this section.
- C. No Wireless Service Facility shall be considered exempt from this section by sharing a MOUNT or FACILITY SITE with such exempt uses.

3.11.3 Definitions

In addition to the terms defined in Section 1.3, Definitions, of this Bylaw, the following words, which are technical terms applying to Wireless Service Facilities, shall have the meaning indicated below. Although set forth here for convenience, the terms shall have the same effect as if set forth in Section 1.3, Definitions.

- A. ACT: The Federal Telecommunications Act of 1996.
- B. ABOVE GROUND LEVEL (AGL): A measurement of height from the natural grade of a site, prior to disturbance, to the highest point of a structure with appurtenances.
- C. ANTENNA: A device by which electromagnetic waves are sent or received (whether a dish, rod, mast, pole, set of wires, plate, panel, line, cable or other arrangement serving such purpose).
- D. APPLICANT: The applicant or co-applicant for any special permit or site plan approval for a Wireless Service Facility shall be a provider of WIRELESS SERVICES, as defined herein, or other entity that has authority from the FCC to provide WIRELESS SERVICES for the facility being proposed. The applicant shall submit documentation of

the legal right to install and use the proposed facility at the time of the filing of the application for the permit or approval.

- E. AVAILABLE SPACE: The space on a Tower or other structure to which ANTENNAS of a Carrier are able to fit structurally and to be technologically feasible.
- F. CAMOUFLAGED: A Wireless Service Facility or components that are disguised, painted, colored or hidden by a purpose-built decoy that is made part of an existing or proposed structure or made to resemble an architectural feature of the building or structure on which it is placed.
- G. CARRIER: An entity that provides Wireless Services, as defined herein, to individuals, businesses or institutions. Synonymous with Wireless Service Provider.
- H. CHANNEL: One of the assigned sub bands of radio frequencies as defined in the ACT, licensed to the CARRIER for wireless service use.
- I. CO-LOCATION: The use of a single MOUNT by more than one CARRIER and/or several MOUNTS on a building or structure by more than one CARRIER. Each service co-located at a site is a separate Wireless Service Facility. CARRIERS operating more than one service at a site will be considered to have more than one facility co-located at the site.
- J. CONCEALED: A Wireless Service Facility or components are CONCEALED when they are within parts of a building or other structure that was built for another purpose and that is not visible from outside the structure.
- K. ENVIRONMENTAL ASSESSMENT: An EA is the document required by the National Environmental Policy Act (NEPA) when a Wireless Service Facility is placed in certain designated areas.
- L. EQUIPMENT SHELTER: An enclosed structure, cabinet, shed or box at the base of the Mount within which are housed batteries, generators and electrical equipment.
- M. FACILITY SITE: A lot or parcel, or any part thereof, that is owned or leased by one or more CARRIERS and upon which one or more Wireless Service Facility(s) and required landscaping are located.

MODIFICATION OF AN EXISTING FACILITY: Any material change or proposed change to a facility including but not limited to power input or output, number of ANTENNAS, change in ANTENNA type or model, repositioning of ANTENNA(s), or change in number of channels per ANTENNA above the maximum number approved under an existing permit or special permit.
- O. MONITORING: The measurement, by the use of instruments away from the ANTENNA, including measurements at the lot/leasehold boundary, of the electromagnetic radiation from a site as a whole, or from individual Wireless Service Facilities, Towers, ANTENNAS, or associated power supplies and generators.
- P. MONOPOLE: A single, self-supporting vertical pole with no guy wires, and hollow such that the ANTENNA cables are CONCEALED within the structure.
- Q. MOUNT: The structure or surface upon which ANTENNAS are Mounted, including the following four types of Mounts:
 - 1. Roof-mount. A mount attached to a building roof to which ANTENNAS are mounted.
 - 2. Side-mount. A mount attached to the side or other non-roof portion of a building to which ANTENNAS are mounted.

3. Ground-mount. A mount anchored into the ground to which ANTENNAS are mounted. Ground mounts include purpose built structures such as poles, bases, posts, MONOPOLES, and towers.
4. Structure-mount. A mount, attached to a structure other than a building, to which ANTENNAS are mounted.

In the absence of a separate structural component to hold an ANTENNA, the ANTENNA shall be considered to be its own ground, roof, side or structure mount.

- R. RADIO FREQUENCY ENERGY (RFE): The electromagnetic emissions from 9 kHz to 3,000 GHz.
- S. SECURITY BARRIER: A locked fence, a wall or berm that completely seals an area from unauthorized entry or trespass.
- T. TOWER: A ground or building MOUNT that is significantly taller than it is wide, built for the purpose of supporting wireless service transmitting, and/or receiving, ANTENNAS and/or related equipment. Components of the Wireless Service Facility used only to attach, contain, or support other elements of that facility are excluded from this definition provided such components are not integrated with, or attached directly to, the tower structure.

3.11.5 Wireless Service Facility District

This district shall be an overlay district and shall include all parcels of land located in the Industrial and Refuse Disposal Districts and on certain parcels of land in the Commercial and Residential Districts, and on land occupied by the State Dept. of Fire Services, the State Entomology Lab and the portion of the former Ft. Devens Annex occupied by the Air Force as depicted on a map dated January 23, 2001 and entitled "Wireless Service Facility District".

3.11.6 Special Permit

- e. No waiver from these height limitations shall be granted except by a vote of Town Meeting.

3.11.7.2 Setbacks – No TOWER, MONOPOLE, or WIRELESS SERVICE FACILITY shall be located within:

- a. 1000 feet, measured on a horizontal plane, to all existing residential Buildings and schools or the footprint of a future residential building for which a Building Permit has been issued, except those residential buildings located on the LOT upon which the WIRELESS SERVICE FACILITY is to be constructed, provided, however, that the Special Permit Granting Authority may allow a setback of 900 feet measured on a horizontal plane when it finds that a substantially better design will result from such reduction. In making such a finding, the Special Permit Granting Authority shall consider the visual and safety impacts of the proposed use;
- b. 1000 feet, measured on a horizontal plane, to all existing municipal buildings, except those located on the LOT upon which the WIRELESS SERVICE FACILITY is to be constructed, provided, however, that the Special Permit Granting Authority may allow a setback of 900 feet measured on a horizontal plane when it finds that a substantially better design will result from such reduction. In making such a finding, the Special Permit Granting Authority shall consider the visual and safety impacts of the proposed use; and
- c. 200 feet from existing non-residential buildings except those located on the LOT upon which the WIRELESS SERVICE FACILITY is to be constructed;
- d. Any WIRELESS SERVICE FACILITY shall comply with front, side, and rear YARD dimensional requirements of Section 4.4, Table of Dimensional Requirements, except that such dimensional requirements may be altered by the Planning Board if it finds that a substantially better design will result. In making such a finding, the Planning Board shall consider both the visual and safety impacts of the proposed WIRELESS SERVICE FACILITY.

3.11.7.3 Shelters and Accessory Buildings - EQUIPMENT SHELTERS for Wireless Service Facilities shall be designed to be consistent with one of the following design standards:

- a. EQUIPMENT SHELTERS shall be located in underground vaults; or
- b. EQUIPMENT SHELTERS shall be designed to be consistent with traditional New England architectural styles and materials. Alternative materials may be used provided that the Special Permit Granting Authority finds the materials to be consistent with character of the neighborhood; or
- c. EQUIPMENT SHELTERS shall be screened behind an effective year-round landscape buffer, equal to the height of the proposed building, and/or wooden fence. The Special Permit Granting Authority shall determine the style of fencing and/or landscape buffer that is compatible with the neighborhood.

3.11.7.4 Security, Signs

- a. All Ground Mounted Wireless Service Facilities shall be surrounded by a SECURITY BARRIER to ensure they are completely secure from trespass or vandalism.
- b. A one square foot sign shall be posted adjacent to the entry gate indicating the name of the facility owner(s) and a 24-hour emergency telephone number(s).
- c. Advertising on any ANTENNA, TOWER, fencing, accessory building or communication EQUIPMENT SHELTER is prohibited.

3.11.7.6 Historic Buildings and Structures

- a. Any WIRELESS SERVICE FACILITY located on or within a historic structure shall not alter the character-defining features, distinctive construction methods, or original historic materials of the building, or
- b. Any alteration made to a historic structure to accommodate a WIRELESS SERVICE FACILITY shall be fully reversible.

3.11.7.7 Environmental Standards

- a. Existing vegetation shall be preserved to the maximum extent practicable.
- b. Electric utilities and all network interconnections from the WIRELESS SERVICE FACILITY via land lines shall be via underground lines.
- c. No hazardous waste shall be discharged on the site of any WIRELESS SERVICE FACILITY. If any hazardous materials are to be stored or used on site, there shall be provisions for full containment of such materials. An enclosed containment area shall be provided with a sealed floor, designed to contain at least 110% of the volume of the hazardous materials stored or used on the site.
- d. Storage of any materials other than those customarily used at the site shall be prohibited.

3.11.7.8 Noise - Ground-Mounted, Roof-Mounted or Side-Mounted equipment for WIRELESS SERVICE FACILITY shall not generate acoustic noise in excess of those levels allowed by the Massachusetts Department of Environmental Protection noise regulation, 310 CMR 7.10 or its successor.

3.11.7.9 RADIO FREQUENCY ENERGY (RFE) Standards - All equipment proposed for a WIRELESS SERVICE FACILITY shall be evaluated for safety compliance per the FCC *Guidelines for Evaluating the Environmental Effects of Radio Frequency Radiation* or their successor.

3.11.8 New WIRELESS SERVICE FACILITY - Any new freestanding MOUNT in the Wireless Service Facility District shall be of a MONOPOLE construction with internal ANTENNAS designed to be visually unobtrusive or with surface MOUNT ANTENNAS as determined to be appropriate for the circumstances by the Planning Board or other less obtrusive design as it becomes available.

3.11.9 Justification of Need

- 3.11.9.1 Coverage Area - The APPLICANT shall provide a map of the geographic area in which the proposed facility will provide Wireless Service. Said map shall be provided as a colored hard copy and in a digital format that is compatible with the Town of Stow Geographic Information System program(s). The APPLICANT shall provide documentation of the criteria and methodology employed to establish coverage area.
- 3.11.9.2 Adequacy of Other FACILITY SITES and Controlled by the APPLICANT - The APPLICANT shall provide written documentation of any FACILITY SITES in the town and in abutting towns or cities in which it has a legal or equitable interest, whether by ownership, leasehold or otherwise. Said documentation shall demonstrate that these FACILITY SITES do not already provide, or do not have the potential to provide WIRELESS SERVICES by site adjustment.
- 3.11.9.3 Capacity of Existing FACILITY SITES and Potential FACILITY SITES - The APPLICANT shall provide written documentation that it has examined all FACILITY SITES located in the town and in abutting towns or cities in which the APPLICANT has no legal or equitable interest to determine whether those existing facilities can be used to provide Wireless Service. In addition, the APPLICANT shall provide written documentation that it has examined existing commercial Buildings and Structures for opportunities to construct roof and side MOUNTS, or otherwise demonstrate that such a facility is not technologically feasible as a potential FACILITY SITE. The APPLICANT shall demonstrate that potential FACILITY SITES will not provide similar coverage to the APPLICANT'S confirmed Co-locators.
- 3.11.9.4 Wireless Service Through the Least Disruptive Means –The APPLICANT shall provide written documentation that the proposed facility uses the least disruptive technology (through the creative use technology and materials) in which it can provide WIRELESS SERVICES in conjunction with all FACILITY SITES listed above.
- 3.11.10 Application
- 3.11.10.1 APPLICANT - The APPLICANT or co-APPLICANT for any special permit or site plan approval for a WIRELESS SERVICE FACILITY shall be a CARRIER that has authority from the FCC to provide WIRELESS SERVICES for the facility being proposed. The APPLICANT shall submit documentation of the legal right to install and use the proposed facility at the time of the filing of the application for the permit or approval.
- 3.11.10.2 Pre-Application Conference - Prior to the submission of an application for a Special Permit under this bylaw provision, the APPLICANT is strongly encouraged to meet with the Special Permit Granting Authority at a public meeting to discuss the proposed WIRELESS SERVICE FACILITY in general terms and to clarify the filing requirements.
- 3.11.10.3 Pre-Application Filing Requirements - The purpose of the conference is to inform the Special Permit Granting Authority as to the preliminary nature of the proposed WIRELESS SERVICE FACILITY. As such, no formal filings are required for the pre-application conference. However, the APPLICANT is encouraged to prepare sufficient preliminary architectural and/or engineering drawings to inform the Special Permit Granting Authority of the location of the proposed facility, as well as its scale and overall design.
- 3.11.10.4 Demonstrated Co-Locators – If proposing CO-LOCATION, the APPLICANT shall submit written proof of commitment.

3.11.11 WIRELESS SERVICE FACILITY Regulations

The Special Permit Granting Authority shall adopt and maintain a set of regulations that contains the necessary policies, procedures, and requirements to implement the provisions of this Section. At a minimum, such regulations shall require the APPLICANT to provide the following materials with the application:

- a. A town-wide map showing all existing Wireless Service Facilities in Stow and those within two miles of its corporate limits, including those recently approved but not constructed.
- b. The proposed locations of all future Wireless Service Facilities known to be under consideration in the Town on a Town-wide map for this CARRIER.
- c. An appraisal, prepared by a state-certified real estate appraiser, of the economic impact on property values within view of the proposed facility, based upon the impact of substantially similar wireless facilities in substantially similar communities. For the purposes of this paragraph, substantially similar communities shall include communities from the Commonwealth of Massachusetts, with similar market demand, population density and rural character.
- d. The results of a drive test conducted by the APPLICANT and based on the pre-application conference.
- e. Sight lines, photographs and other visual materials as described below:
 - 1) Sight line representation. A sight line representation shall be drawn from any public road within 1500 feet and the closest facade of each residential building (viewpoint) within 1500 feet to the highest point (visible point) of the WIRELESS SERVICE FACILITY. Each sight line shall be depicted in profile, drawn at one-inch equals 40 feet. The profiles shall show all intervening trees and Buildings. In the event there is only one (or more) residential building within 1500 feet there shall be at least two sight lines from the closest habitable structures or public roads, if any.
 - 2) Existing (before condition) photographs. Each sight line shall be illustrated by one four-inch by six-inch color photograph of what can currently be seen from key locations on any roadways determined by the Special Permit Granting Authority to be relevant to the requested special permit.
 - 3) Proposed (after condition). Each of the existing condition photographs shall be based on crane or balloon tests and shall have the proposed WIRELESS SERVICE FACILITY superimposed on it to show what will be seen from key locations on any roadways determined by the Special Permit Granting Authority to be relevant to the requested special permit if the proposed WIRELESS SERVICE FACILITY is built. Original photos of crane or balloon test shall be supplied to verify authenticity of the digital simulations.
 - 4) The APPLICANT shall submit a map of the town that has been annotated with the data collected during the crane or balloon test. The roadways, determined by the Planning Board to be relevant to the requested special permit, shall be highlighted in one color, the points where the crane or balloon was visible at all shall be highlighted in another color, and the points where there is an unscreened view of the crane or balloon shall be highlighted in a third color. The APPLICANT shall designate on the map the location from which the photographs were taken.
 - 5) The APPLICANT shall submit a map showing the broadcast footprints coverage areas created by varying antenna heights at 50, 75. and 100 feet AGL and at 150 feet AGL where the latter height is permitted. The map shall indicate the different signal strengths and the parameters used to arrive at the data. An explanation of

the reasons for selecting the signal strength(s) used to characterize coverage shall be provided. As a minimum the following shall be provided with each map: frequency in MHz, transmitter power output per channel, transmit and receive antenna gains, line loss and amplifier gains (if any), effective radiated power per channel in watts, all quality-of-service assumptions used (including factors for attenuation through foliage and/or structures), signal strength required to meet the stated quality-of-service assumptions, and identification of the computer software used to generate the footprints. The applicant shall also include, on a separate map of the same scale, signal-strength footprints indicating any existing coverage within the Town of Stow from any applicant-owned or -operated sites in Stow and any existing coverage from adjacent towns that meet the stated quality-of-service assumptions.

- f. Within 21 days of filing an application for a Special Permit, the APPLICANT shall arrange for a crane or balloon test, satisfactory to the Planning Board, at the proposed site to illustrate the height of the proposed facility. The date, time and location of such test shall be advertised in two newspapers of general circulation in the Town at least 14 days, but not more than 28 days prior to the test. Notification of the test shall be mailed to all postal patrons in Stow. Notification shall also be sent via certified mail with return receipt requested to all parties in interest. The test shall illustrate the proposed height and each subsequent ten-foot interval downward to the vegetation line, or ground, whichever is earlier.
- g. Noise Filing Requirements: The APPLICANT shall provide a statement demonstrating the impact of the proposed facility on the acoustic noise environment in the vicinity of the facility. The following conditions shall apply:
- 1) Existing ambient conditions: characterize existing acoustic noise conditions in the area.
 - 2) Existing plus proposed conditions: characterize acoustic noise produced by the proposed WIRELESS SERVICE FACILITY in relation to the existing ambient conditions as it would affect nearby parcels.
 - 3) If the acoustic noise levels produced by the proposed WIRELESS SERVICE FACILITY are expected to approach or exceed the Massachusetts Department of Environmental Protection requirements, the Planning Board may require a more detailed analysis and/or field measurements prior to rendering its decision on an application, or as a condition of the Special Permit, or in other such manner as deemed by the Planning Board to be appropriate.
- Such statement shall be certified and signed by an acoustical engineer, stating that noise measurements are accurate.
- h. RADIO FREQUENCY ENERGY (RFE) Filing Requirements: The APPLICANT shall provide a statement listing the existing and maximum future projected levels of RFE from the proposed WIRELESS SERVICE FACILITY, for the following situations:
- 1) Existing, or ambient: characterize existing RFE sources in the area;
 - 2) Existing plus proposed wireless service facilities: characterize RFE from the proposed WIRELESS SERVICE FACILITY plus the existing RFE environment and estimated cumulative RFE impacts, and
 - 3) Certification, signed by a Radio Frequency (RF) engineer, experienced in the field of evaluating RF standards, stating that RFE characterizations are accurate and meet FCC Guidelines as specified in the RFE Standards sub-section of this Bylaw.

Chapter 40A, Section 3.

3.12 Wireless Communications Facilities Moratorium

3.12.1 Purpose

The purpose of the wireless communications facilities moratorium is to allow the Planning Board and a 5-member Wireless Subcommittee of Town residents, appointed by the Planning Board, sufficient time to undertake a comprehensive study and analysis with respect to regulating the use of land in the Town of Stow for wireless communications facilities and develop a comprehensive proposed zoning bylaw amendment regulating the location, height, size, appearance, screening, site standards, land structure relationships, buffer requirements and all other aspects of wireless communications facilities. Town Meeting believes it prudent and appropriate to have conducted a comprehensive study and analysis prior to adopting a zoning bylaw amendment regulating all aspects of wireless communications facilities.

3.12.2 Justification

There have been significant changes in the past five years in the federal law regulating wireless communications facilities because of the enactment of the Telecommunications Act of 1996 by the United States Congress; and

The telecommunications field is experiencing rapidly evolving technology that offers alternatives to the erection of wireless communications towers such as the placement of antennas in and on buildings and other structures; and

The Town of Stow has a limited number of potential sites which would be suitable for the construction of wireless communications facilities, and a comprehensive study of the suitability of such sites was not done prior to the adoption of the existing provisions of the Zoning Bylaw relative to wireless communications facilities; and

The Town of Stow must take into account probable future development according to the plans and programs established by the Town, as may be amended, so as to prevent inappropriate development and to plan for the protection of the public health, safety and welfare of its present and future inhabitants; and

Recent federal and state case law has supported a municipality's ability to ensure the appropriate siting of telecommunication facilities, consistent with a municipality's obligation under the Telecommunications Act and the municipality's police power obligations to protect public health, safety and welfare; and

The existing provisions of the Zoning Bylaws relative to wireless communications facilities need to be studied in order to give complete consideration to the appropriate limits on height of towers, separation between towers, setbacks for towers, facility testing and monitoring, so-called stealth technology, testing requirements for visual impact, the appropriate types of structures to be permitted, locations of structures and other factors; and

The Planning Board and the appointed Subcommittee has begun an earnest and comprehensive study of said subjects and factors but needs an additional six (6) months to complete its study and make recommendations to the Planning Board and Town Meeting.

Now, therefore, and consistent with the rational provided above and consistent with the Town's police powers and coincident obligations, the Town adopts the following moratorium with respect to Wireless Communication Facilities.

3.12.3. Moratorium Provisions

No wireless communications facility or structure appurtenant or accessory to a wireless communication facility shall be constructed, nor shall any building permit, special permit, variance or site plan approval decision for any such facility be issued in the Town of Stow for a period of six (6) months from the effective date of this Zoning Bylaw amendment.

3.12.4 Moratorium Expiration

Unless extended, continued or modified by a subsequent action of Town Meeting, the provisions of this Moratorium shall expire six (6) months from its effective date or upon approval by the Attorney General and subsequent posting by the Town Clerk, of the Wireless Service Facility bylaw contained in Article 13 of the February 12, 2001 Special Town Meeting Warrant, whichever is sooner.

3.12.5. Exemptions

The following types of wireless communications facilities are exempt from the provisions of Section 3.12.3:

3.12.5.1 Wireless communications facilities insofar as they qualify for exemptions from zoning regulation as set forth in G.L. c. 40A, Section 3, but only to the extent of the degree exempted by said G.L. c.40A, Section 3; and

3.12.5.2 Wireless communications facilities constructed by the Town of Stow for public safety communications purposes, if the applicant for said facility is an office, department or agent of the municipal government of the Town of Stow, Massachusetts.

SECTION 4

DIMENSIONAL REGULATIONS

4.1 Standard Dimensional Provisions:

- 4.1.1 No BUILDING, STRUCTURE or land, or part thereof, may be constructed, altered, enlarged, repaired or moved, occupied and used for any purpose which violates any section of this Bylaw or any of the provisions of the bylaws of the Town of Stow.
- 4.1.2 Only one main BUILDING may be built or placed on any LOT within the Town except within a business, commercial, or industrial district. Any main BUILDING hereafter ERECTED shall be on a LOT which has frontage upon a STREET as defined in this Bylaw.
- 4.1.3 A LOT on which there existed at the time of the adoption of this Bylaw two (2) or more DWELLING houses may be divided into as many LOTS as there were DWELLING houses thereon, providing the LOT is divided in such manner that the resulting LOTS shall conform to the area and frontage requirements of this Bylaw, except upon special permit granted by the Board of Appeals. No other LOT may be changed so as to result in a LOT or LOTS having less than the minimum area and frontage requirements.
- 4.1.4 No BUILDING except piers, wharfs and other STRUCTURES to service boats shall be ERECTED below the flood contour lines as shown on the maps and plans set forth in Section 2.3.8 of this Bylaw, as indicated on and incorporated in by reference on the zoning map accompanying this Bylaw, except upon a special permit granted by the Board of Appeals as hereinafter provided for in Section 5.1.1.7.
- 4.1.5 Any construction or use for which a permit was legally issued prior to the adoption of this bylaw or any amendment thereto shall be permitted, notwithstanding non-compliance with the requirements of this bylaw or amendment thereto, provided such construction or use was commenced within six (6) months after the issuance of the permit and carried on to completion within two (2) years, unless a special permit for a longer period of time is granted by the Board of Appeals.
- 4.1.6 This section is intended to provide additional rights to build single family DWELLINGS on certain LOTS in the Residential District that do not conform to zoning area and frontage requirements in effect, and is in no way intended to limit any rights set forth as to such LOTS in Chapter 40A, as from time to time amended. The Board of Appeals shall grant a special permit for the construction of a single-family DWELLING to the owner of any LOT of at least 40,000 square feet area and at least 150 feet of contiguous LOT frontage in the Residential District, which was separately shown, laid out or described in a plan, deed or certificate of title duly recorded or registered at the Middlesex South District Registry of Deeds, and met all requirements of the Bylaw then in effect, prior to the first publication of notice of the public hearing required before any amendment of the Zoning Bylaw pursuant to said Chapter 40A, increasing such area or frontage requirements, or both, for a residential LOT, and situated on a STREET as defined in the Zoning Bylaws open for use by the public at such date of publication, upon a finding that the conditions in Section 4.1.6.1 are met.

- 4.1.6.1 Any adjoining LOT to the LOT described in the application for a special permit, held in common ownership with the LOT described in the application for the special permit, had an existing lawful BUILDING thereon, or a building permit had issued for such a BUILDING (on which construction was commenced within six [6] months from the date of the permit and continued through to completion as continuously and expeditiously as reasonable) before the date of the publication of the first notice of the public hearing on the amendment to the Zoning Bylaw, increasing such area or frontage requirements, so that such adjoining LOT is not available for use in combination with the LOT which is the subject of the application at the time of filing the application.
- 4.1.6.2 Provided, however, that the Board of Appeals shall grant such special permit for only one LOT to any owner owning such LOT in common with a LOT unavailable for use in combination therewith as defined in this section which permit shall run with the land; and shall impose as conditions to such special permit that any proposed DWELLING is to be located on such LOT so as to conform with all other minimum requirements of FRONT, SIDE and REAR YARD setbacks of the Zoning Bylaws in effect; and the further condition that, unless the LOT is sold and thereafter is in separate ownership, a special permit granted under this section shall lapse within a specified period of time, not more than two (2) years thereafter if a building permit has not been issued and construction has not begun by such expiration date except for good cause shown and an extension of such special permit by the Board of Appeals granted upon a showing of good cause.
- 4.1.6.3 Provided further, that the Board of Appeals may impose additional conditions and safeguards, where appropriate, to assure harmony with the general purpose and intent of the Zoning Bylaws.

4.2 Height Regulations:

- 4.2.1 The height of any BUILDING or STRUCTURE shall not exceed thirty-five (35) feet unless a special permit has been granted by the Planning Board when there is no obstruction to scenic views from public ways or properties, except that in no case shall the height exceed the limits permitted by Section 35A of Chapter 90 of the General Laws as inserted by Chapter 756 of the Acts of 1960 and any more restrictive amendments thereto. Radio towers, chimneys, broadcasting and television antennae, bulkheads, cooling towers, water towers, ventilators and other appurtenances shall in no event exceed one hundred (100) feet in height, and amateur radio towers and antennae shall not exceed one hundred fifty (150) feet in height, and further provided that if the use requires a permit or license for the intended use from any governmental authority, one has been granted.
- 4.2.2 Height shall be measured as the vertical distance from the average ground elevation around the exterior WALLS of the STRUCTURE, or, in the case of built-up land, the highest elevation at the site prior to such change in contour, to the highest point of the roof surface in the case of a flat roof, and to the mean height between eaves and ridge in the case of a pitched roof.
- 4.2.3 Limitations of height shall not apply to spires, domes and steeples.

4.3 Area, Frontage, YARD, and FLOOR AREA Requirements

- 4.3.1 No BUILDING shall be ERECTED unless in conformity with the requirements on the Table, following, except:

- 4.3.1.1 eaves, sills, cornices, belt cornices and window awnings may project up to two feet into the required YARD;
- 4.3.1.2 on a corner LOT in order to provide unobstructed visibility at intersection, no SIGN, FENCE, WALL, tree, hedge, or other vegetation, and no BUILDING or other STRUCTURE more than three (3) feet above the established STREET grades measured from a plane through the curb grades or the height of the crown of the STREET, shall be ERECTED, placed or maintained within the area formed by intersecting STREET LINES and a straight line joining said STREET LINES at points which are twenty-five (25) feet distant from the point of intersection, measured along said STREET LINES; and
- 4.3.1.3 further, no YARD, LOT area or OPEN SPACE required for a BUILDING by this Bylaw, shall, during the existence of such BUILDING, be occupied by or counted as OPEN SPACE for another BUILDING. No LOT area shall be so reduced or diminished that the YARDS or other OPEN SPACES shall be smaller than prescribed by this Bylaw.
- 4.3.1.4 A detached ACCESSORY BUILDING or a swimming pool may be ERECTED in the REAR or SIDE YARD area in conformance with the YARD requirements of the district in which it is located. An ACCESSORY BUILDING attached to its principal BUILDING shall be considered an integral part thereof, and as such shall be subject to the FRONT, SIDE and REAR YARD requirements applicable to the principal BUILDING;
- 4.3.2 Methods for Calculating Dimensional Requirements - The following shall apply:
 - 4.3.2.1 LOT area - LOT area shall be determined by calculating the area within a LOT including any area within the LOT over which easements have been granted, provided that no area within a STREET shall be included in determining minimum LOT area. Water area beyond ten (10) feet from the shore lines shall not be included in determining the minimum LOT area. Furthermore, in all districts, at least 50% of the minimum required LOT area shall be land which is not in a wetlands or Flood Plain/Wetlands District.
 - 4.3.2.2 Frontage shall be contiguous and measured along the STREET LINE.
 - a) For a corner LOT, frontage shall be measured along one STREET only, including one half of the corner arc, or that portion of the corner arc not exceeding twenty-five (25) feet, whichever is less.
 - b) If a LOT has frontage on more than one STREET, the frontage on one STREET only may be used to satisfy the minimum LOT frontage.
 - 4.3.2.3 Area Suitable for BUILDINGS - Except in the case of hammerhead LOTS as permitted in a Residential District, each LOT in a Residential District shall have sufficient area suitable for BUILDINGS. The area suitable for BUILDINGS shall be considered sufficient if: (a) a circle of 150 feet in diameter, or, (b) a rectangle with an area of 20,000 square feet and a minimum side of 80 feet can be drawn on the LOT plan without overlapping any LOT line or any wetlands or Flood Plain/Wetlands District.
 - 4.3.2.4 LOT Width - In the Residence District, each LOT shall have a minimum width of at least 100 feet between the STREET LINE and the area suitable for BUILDINGS. A LOT meets the minimum width requirement if a 100-foot diameter circle can move on the LOT plan from the STREET LINE to the area suitable for BUILDINGS without overlapping any side or rear LOT line or any Flood Plain/Wetlands District line.

4.3.2.5 LOT Shape - No LOT shall be laid out which is substantially irregular in shape. For purposes of this provision, substantially irregular is defined as a LOT having an index of regularity lower than four-tenths (0.4) as determined by the following formula.

When the LOT is a hammerhead LOT, the index of regularity shall not be lower than 0.25.

$$r = \frac{16a}{p^2}$$

Where: r = The index of regularity
a = The area of the LOT in square feet.
p = The perimeter of the LOT in linear feet.

Provisions of this section shall not apply to LOTS shown on a plan and part of an application for a special permit or subdivision, the application for which has been duly filed as required by this Zoning Bylaw or the Massachusetts General Laws before the first publication of notice of the public hearing on such amendment required by Massachusetts General Laws Ch. 40A, s. 5.

4.3.2.6 Front YARDS - Front YARDS shall be the distance measured in a straight line between the LOT frontage and the nearest point of any BUILDING or STRUCTURE, excluding roof overhangs. Roof overhangs shall not extend further than two feet into the minimum required front YARD.

- a) A LOT having frontage on two or more STREETS shall have two or more front YARDS, each of which shall comply with the requirements of the front YARD provisions.
- b) In no case shall any BUILDING or STRUCTURE be located closer to the sideline of a STREET than the minimum required front YARD.
- c) Driveways are allowed within FRONT YARDS.

4.3.2.7 Side and Rear YARDS - Side and rear YARDS shall be the distance measured in a straight line from the nearest point of any BUILDING or STRUCTURE to each side or rear LOT line, excluding roof overhangs. Roof overhangs shall not extend further than two feet into the minimum required side or rear YARD.

4.3.2.8 FLOOR AREA RATIO - The ratio of the sum of the GROSS FLOOR AREA of all BUILDINGS on a LOT to the DEVELOPABLE SITE AREA of the LOT.

4.4 Table of Dimensional Requirements

These requirements shall be satisfied entirely within each district.

Footnote to Table of Dimensional Requirements

- (1) If the LOT abuts a residential or recreation-conservation district, whether directly or separated by a public or railroad right-of-way, the side and rear YARDS abutting the residential or recreation-conservation district shall be increased as follows and shall include a 50' landscaped buffer that consists of an opaque screen as defined in Section 7.7.4.1 of the Zoning Bylaw.

Minimum Side or Rear YARD

Compact Business District	50 feet
Business District	50 feet
Commercial District	50 feet
Industrial District	100 feet

- (2) The minimum frontage on Route 117 (Great Road) shall be 200 feet.
- (3) In the Refuse Disposal District, one hundred feet (100') of the FRONT, REAR and SIDE YARDS must be densely planted with natural screening, or otherwise screened. YARD requirements may be waived as a condition of the special permit for that portion of a parcel of land abutting an operational REFUSE disposal facility. Such YARD requirements are to be measured from the LOT boundaries and the outer-most limits of the excavation or any BUILDING for the REFUSE disposal facility.

The Flood Plain/Wetlands District is intended to protect the public health and safety, persons and property against the hazards of flood water inundation; to preserve and maintain the GROUND WATER table; to protect the community from the costs which may be incurred when unsuitable development occurs in swamps, marshes, along water courses, or in areas subject to floods; and to conserve natural conditions, wildlife, and OPEN SPACES for the education, recreation and general welfare of the public. The provisions applicable to the Flood Plain/Wetlands District shall be considered as overlapping other zoning districts. In those cases where the Flood Plain/Wetlands District overlaps another zoning district, the provisions of the Flood Plain/Wetlands District shall be controlling.

5.1.1 Uses Permitted:

- 5.1.1.1 Conservation areas for water, water supply, plants and wildlife, and dams necessary for achieving this purpose;
- 5.1.1.2 Farming and horticulture, including raising and harvesting crops, truck gardening, grazing and livestock raising, but not including piggeries or the raising of animals for fur;
- 5.1.1.3 Nurseries, forests and tree farms, provided that any equipment necessary for these uses is normally stored so it is not visible from district or property boundaries;
- 5.1.1.4 Recreation, including golf courses, municipal, county or state parks (but not an amusement park), boating, fishing, hunting (where legally permitted), MARINAS, landings and any non-commercial recreation use;
- 5.1.1.5 In a business, commercial or industrial district, any of the foregoing uses which are conducted for profit, or for which a fee or similar charge is made, and allowed within the Flood Plain/Wetlands District, provided that such uses are otherwise permitted in the district overlapped by the Flood Plain/Wetlands District;
- 5.1.1.6 Subject to General Laws, Chapter 131, Section 40 and 40A access across land within the district overlapped; and
- 5.1.1.7 The Board of Appeals may grant a special permit to allow any use or STRUCTURE otherwise permitted in the district overlaid by the Flood Plain/Wetlands District if it is clearly shown that the land intended for said use or structure is included within the Flood Plains/Wetlands District through mapping error, or that no portion of said proposed new use or structure will be below the flood plain elevation as defined in this Bylaw.

5.2 Water Resource Protection District

The Water Resource Protection District is intended to protect, preserve and maintain the existing and potential GROUND WATER supply and GROUND WATER RECHARGE AREAS within the town; to preserve and protect present and potential sources of GROUND WATER supply for the public health and safety; and to conserve the natural resources of the town. The Water Resource Protection District shall be considered as overlying other zoning districts and the provisions of the Water Resource Protection District shall be controlling, and any uses permitted in the portions of the underlying districts shall be permitted subject

to all the provisions of this Section. Prohibitions of land use in the underlying districts shall not be modified by the conditions of the Water Resource Protection District.

5.2.1 Uses permitted provided that all necessary permits, orders or approvals required by local, state or federal law shall have been obtained:

5.2.1.1 All uses of the underlying district provided that no such use on any LOT or parcel shall as to that portion of said LOT or parcel within the Water Resource Protection District:

1. Result in the disposal of any waste material, solid or liquid, other than SANITARY WASTES, brush or stumps.
2. Generate on-site sewage disposal exceeding 110 gallons per day per 10,000 square feet of LOT area, except as provided in Section 5.2.2.3. For the purposes of this Bylaw, such volumes are to be estimated as provided in Title 5, Sanitary Sewage, of the State Environmental Code.
3. Conduct any activity which involves as a principal or ACCESSORY USE the manufacture, process, storage, application, transportation and/or disposal of toxic or HAZARDOUS MATERIALS where such activity would involve outside storage, on-site waste disposal except as provided in Section 5.2.2, or uncontrolled drainage facilities which would allow discharge to surface or GROUND WATER.
4. Dispose of snow brought in from outside the District.
5. Involve the storage for sale of fuel, oil or gasoline or, except as allowed by special permit, involve outdoor storage of road salt, or other deicing chemicals, fertilizers, herbicides or pesticides.

and livestock raising but not including piggeries or the raising of animals for fur, provided that fertilizers, herbicides, pesticides and other leachable materials are not stored in any manner which would permit leakage thereof; the appropriateness of the management practices shall be governed by USDA or Soil Conservation Service, or Cooperative Extension Service or Massachusetts Department of Food and Agriculture's guidelines and use regulations;

- 5.2.1.6 Necessary public utilities and facilities, provided they are designed to prevent contamination of GROUND WATER;
 - 5.2.1.7 Construction of BUILDINGS, STRUCTURES and other facilities for parking and other uses are as appurtenant thereto, provided that except to the extent of naturally occurring PH and temperature components of surface water quality and GROUND WATER quality standards, runoff waters leaving the developed site via surface flow shall remain unimpaired as to quality;
 - 5.2.1.8 Maintenance, replacement and repair of existing BUILDINGS or STRUCTURES;
 - 5.2.1.9 Home heating storage tanks, provided that the contents thereof are for heating the premises and that the tanks are contained within the BUILDING; and

 - 5.2.2.3 Generation of on-site sewage disposal exceeding 110 gallons per day per 10,000 square feet of LOT area; and
 - 5.2.2.4 Above ground or indoor storage of toxic or HAZARDOUS MATERIALS totaling more than fifty gallons of liquid volume or twenty-five pounds per dry weight, except as allowed in Section 5.2.1.9.
- 5.2.3 In addition to the usual requirements in applying for a special permit, each applicant for a special permit hereunder shall provide the following additional information at the time the application is filed:
- 5.2.3.1 A complete list of all chemicals, pesticides, fuel or other potentially toxic or HAZARDOUS MATERIALS to be used or stored on the premises in quantities greater than those associated with normal household use, accompanied by a description of measures proposed to protect all storage containers/facilities from vandalism, corrosion and leakage and to provide for control of spills;
 - 5.2.3.2 A description of potentially toxic or hazardous wastes to be generated, indicating storage and disposal methods;
 - 5.2.3.3 Evidence of approval by the Massachusetts Department of Environmental Protection (DEP) of any industrial waste treatment or disposal system or any waste water treatment system subject to 310 CMR 15.02; and

- 5.2.3.4 Analysis by a technically qualified expert certifying that during the normal operation of the proposed use the quality and supply of the underlying GROUND WATER resources will not be degraded from EXISTING CONDITIONS.
- 5.2.4 The Special Permit Granting Authority may grant such a special permit provided that it finds in addition to such other findings as are otherwise required by the Bylaw that such use permitted thereby:
 - 5.2.4.1 Meets the purpose and intent of this Bylaw and will not derogate from the purpose of the Water Resource Protection District;
 - 5.2.4.2 Satisfies the requirements for design set forth in Section 5.2.5 below;
 - 5.2.4.3 Will not, during construction or thereafter, impair existing GROUND WATER quality or reduce existing recharge capacity beyond that allowed in Section 5.2.1.1.8 of this Bylaw; and
 - 5.2.4.4 Will not adversely affect the quality or the yield of an existing or potential GROUND WATER supply.
- 5.2.5 The above uses shall be permitted only upon satisfaction of the following design requirements:
 - 5.2.5.1 Where a portion of the LOT is located partially outside the Water Resource Protection District, site design shall to the extent feasible, locate potential pollution sources, such as on-site disposal systems, outside the district boundaries.
 - 5.2.5.2 Roof, parking and drive runoff shall be recharged on the site, diverted toward areas covered with vegetation for surface infiltration to the maximum extent practicable. Runoff from parking areas of 5,000 square feet or more shall be discharged to oil-gas trap catch basins with appropriate sumps prior to recharge.
 - 5.2.5.3 MINING OF LAND or excavation for earth, sand, gravel and other soils shall not extend closer than five feet above the maximum GROUND WATER elevation, except to provide for structural foundations, holding ponds for drainage purposes and utility conduits. Exposed land shall be returned to its natural vegetative state when excavation is complete.
 - 5.2.5.4 Any additional net runoff volume shall not be diverted beyond the boundaries of this District.
 - 5.2.5.5 Risk of pollution through accidental spillage of HAZARDOUS MATERIALS shall be reduced through the use of secure storage areas, impermeable diked catchments, separated drainage systems from an area where toxic or HAZARDOUS MATERIALS are stored or handled, or similar measures, which shall at the minimum meet any requirements of any governmental agency and shall in general conform to any standards established for such purpose by any industry or other private organization.
 - 5.2.5.6 PROCESS WASTES from other operations other than personal hygiene and food for residents, patrons and employees shall be treated so that contaminant levels in GROUND WATER resulting from such disposal will not exceed those levels specified in 310 CMR 22.00, or existing levels where such existing levels are higher.
 - 5.2.5.7 All runoff from IMPERVIOUS SURFACES shall be recharged on the site by being diverted toward areas covered with vegetation for surface infiltration to the extent possible. Dry wells shall be used only where other methods are not feasible and shall be preceded by oil, grease and sediment traps to facilitate removal of contaminated solids. No discharge directly into surface waters without intervening mitigative measures will be allowed.

SECTION 6

GENERAL REGULATIONS

6.1 Hammerhead LOTS

In a Residential District, a LOT known as "Hammerhead LOT" may be granted by special permit by the Planning Board, under the requirements and process for a special permit, provided that the Board is able to make a finding that all the following conditions have been met:

- 6.1.1 The LOT has a frontage of at least 50 feet;
- 6.1.2 The LOT has an area of at least 180,000 square feet;
- 6.1.3 The LOT has sufficient area suitable for BUILDINGS. The area suitable for BUILDINGS shall be considered sufficient if

 - 6.1.3.2 a rectangle with an area of 20,000 square feet and a minimum side of 80 feet can be drawn on the LOT plan within the buildable area and not overlap any LOT line or any wetlands or Flood Plain/Wetlands District;
- 6.1.4 The LOT has a minimum width of 50 feet between the STREET LINE and the buildable area. A LOT means the minimum width requirement if a 50-foot diameter circle can move on the LOT plan from the STREET LINE to the buildable area without overlapping or crossing any LOT line or any Flood Plain/Wetlands district line;
- 6.1.5 Any BUILDING on the LOT be set back at least 40 feet from every property line;
- 6.1.6 A condition of the permit be that the LOT shall not be further divided; and
- 6.1.7 Sufficient sight distance to permit safe access to the way is provided in both directions at the point of access from the LOT across its frontage. Sight distance shall be deemed sufficient if, in feet, it is equal to at least six times the posted or allowable speed (miles per hour) of the way onto which access is provided.

6.2 Common Drive

Common drives are encouraged and may be allowed as provided in this section. In the Residential District, construction of a private drive to be shared by more than one LOT, but not more than three (3) LOTS, is permitted subject to the following specifications:

As part of an approved subdivision or special permit granted by the Planning Board, the length of a common drive may be longer than five hundred (500) feet.
- 6.2.3 The common drive shall lie entirely within the LOTS being served.

- 6.2.4 Use of the common drive by vehicle traffic shall be limited to ingress and egress and does not include the parking of vehicles on the common drive, except that occasional overflow parking of guests' vehicles shall be permitted, provided that such vehicles are parked in a manner that does not impede traffic flow and that such parking does not extend overnight.
- 6.2.5 The owners of the LOTS shall bear and have joint and several responsibilities and obligations for the repair, maintenance, reconstruction and snowplowing of the common drive, so as to provide continuous year-round access for vehicle traffic for the convenience of the owners of the LOTS, and to provide continuous year-round access for all emergency, fire, rescue, police, moving, construction and maintenance vehicles. No building permit shall be issued until a restriction or covenant to run with the land has been approved by the Planning Board in a form satisfactory to assure compliance with this provision and a copy of the document received by the BUILDING INSPECTOR.
- 6.2.6 An Erosion Control and Sedimentation Plan, in accordance with Planning Board Rules and Regulations governing the same, shall be submitted to and approved by the Planning Board.

6.6 FENCES

6.6.1 In residential districts, no FENCE or WALL shall exceed eight feet in height.

6.6.2 In residential districts, FENCES shall be set back a minimum of one foot from the property lines. In instances when the FENCE is primarily intended to enclose animals, it shall be set back a minimum of three (3) feet from the property line.

SECTION 7

PARKING REGULATIONS

7.1 Purpose

The purpose of this section is to ensure that all uses be provided with sufficient off-street parking and loading facilities to meet the needs of the proposed and actual uses; to ensure that off-street parking and loading facilities are designed so as to reduce hazards to pedestrians and drivers; to reduce congestion in the STREETS; to reduce nuisance to abutters from noise, fumes and headlight glare ordinarily associated with parking and loading areas; to reduce the environmental deterioration to surrounding neighborhoods resulting from glare, storm water runoff, heat, dust and unattractive views associated with large expanses of pavement and vehicles.

7.2 General Provisions

An adequate number of off-street parking spaces shall be required in all districts to accommodate residents and visitors. Therefore, no BUILDING or STRUCTURE shall be located upon any LOT and no activity shall be conducted upon any LOT unless the required parking facilities are provided on site in accordance with this Section.

7.2.1 Changes - Any change to a BUILDING, STRUCTURE or USE, or a change from one permitted USE to another permitted USE shall comply with the requirements of the Schedule of Minimum Parking for the entire BUILDING, STRUCTURE or USE as changed.

7.2.2 Undetermined Uses - Where the use of a BUILDING or BUILDINGs has not been determined at the time of application for a building permit or special permit, the parking requirements applicable to the most intensive use allowed in the district where such undetermined use is to be located shall apply provided, however, that the number of parking spaces actually built need not exceed the number required by the actual use or uses of the BUILDING when established to the satisfaction of the permit granting authority by calculation and/or appropriate condition or covenant in recordable form.

7.2.3 Relief from Parking Regulations - Relief from the Parking Regulations as otherwise required in the Bylaw may be obtained as follows:

7.2.3.1 Special Permit from the Board of Appeals - Relief from the parking regulations may be granted by special permit from the Board of Appeals, where the Board finds that it is not practicable to provide the number of parking spaces required, if either (1) in the case of a change from a NONCONFORMING USE to a conforming USE, that the benefits of a change to a conforming USE outweigh the lack of parking spaces, or (2) in the case of a change from one conforming USE to another conforming USE, that the lack of parking spaces will not create undue congestion or traffic hazards on or off the site.

7.2.3.2 Industrial Uses - Relief from buffer and landscape requirements for Industrial Uses - In the case of a continuous parking lot(s) associated with a conforming use in an industrial district, the buffer and landscape requirements in Subsections 7.7.5, 7.7.6 and 7.7.7 may be varied in accordance with Planning Board Rules and Regulations governing the same or in accordance with the Planning Board's Design Review Approval of off-street parking and loading area design requirements. Design Review Approval shall include

the requirement for a landscape parking plan using Stormwater Best Management Practices.

- 7.2.4 Use of Required Parking as Commercial or Public LOT - No parking area designated as required parking in connection with a BUILDING, STRUCTURE or USE shall be operated as a commercial or public parking lot to provide spaces for the general public (excluding customers, clients, patients, guests or business invitees of the owner or tenant of each BUILDING or STRUCTURE) for a fee or other compensation.
- 7.2.5 Reserved Parking spaces - Where the total number of off-street parking spaces required are not immediately required for a particular intended USE as established to the satisfaction of the permit granting authority (or BUILDING INSPECTOR if no special permit or site plan approval is required), a phased development plan may be permitted requiring that only a portion of the parking area, but not less than sixty-five percent (65%) of the required spaces, be completed initially, subject to the following provisions:

Required parking spaces, loading areas and driveways shall be provided and maintained with suitable grading, paved surfaces and adequate drainage which is suitable in accordance with good engineering practices. Any parking area containing five (5) or more parking spaces shall include landscaping as required below which is satisfactory to the Permit Granting Authority (if the parking area is related to a PERMITTED USE for which a special permit or site plan approval is required), or the BUILDING INSPECTOR (for other parking areas), or their designee, in accordance with good engineering practices, located and designed to enhance the visual appearance of the parking or loading facility, to ensure traffic safety and to minimize the adverse effects of the parking or loading facility on the natural environment.

The opaque screen may be composed of a wall, FENCE, landscaped earth berm or densely planted vegetation in a mix of deciduous and evergreen varieties, tolerant to the climatic conditions of Stow. The opaque portion of the screen must be opaque in all seasons of the year. - 7.7.6.7 Trees, shrubs, grass and ground cover which die or become diseased shall be replaced.

7.7.6.8 All landscaping in parking areas shall be placed so that it will not obstruct sight distance. Final locations of all plantings shall be inspected and approved by the Permit Granting Authority (if the parking area is related to a permitted use for which a special permit or site plan approval is required), or the BUILDING INSPECTOR (for other parking areas), or their designee, including the viability of existing vegetation retained after development and any necessary replacements thereof.

All required landscaping and plantings must be maintained in a neat, attractive appearance as a condition of the continued PRINCIPAL USE of the LOT.

7.8 Structured Parking

The accommodation of required off-street parking spaces in a garage, deck or other STRUCTURE shall require, in addition to all other OPEN SPACE requirements of this Bylaw, the set-aside of OPEN SPACE of an area equal to the footprint of the structured parking facility. Structured parking facilities shall not be counted in calculating the NET FLOOR AREA of a BUILDING.

8.5 Planned Conservation Development (PCD)

- 8.5.1 Purpose - The purpose of the Planned Conservation Development is to allow residential development which encourages
 - a) protection of Stow's rural character by development of land in clusters and villages which is in greater harmony with the town's natural resources and historic development patterns;
 - b) preservation of land for conservation, OPEN SPACE, recreation, agriculture and forestry;
 - c) preservation of significant land and water resources, natural areas and scenic vistas;
 - d) preservation of unique and significant historical and archaeological resources;
 - e) a greater mixture of housing types and more energy-efficient and cost-effective residential development; and
 - f) reduced costs of providing municipal services.

It is not the intent of this bylaw to make undevelopable land developable, nor to permit an increase in the number of BUILDING LOTS that would otherwise be possible on a conventional plan pursuant to the provisions of the zoning bylaws that otherwise apply, but rather to encourage the preservation of important site features.

- 8.5.2 Special Permit - Planned Conservation Development as set forth in this section is authorized by the Zoning Act, Mass. General Laws Chapter 40A, Section 9, and is based on the general concept of "cluster development" described therein. As the Special Permit Granting Authority, the Planning Board may grant a Special Permit for the development and construction of a Planned Conservation Development on all land and parcels in the Residential District(s) subject to the following requirements.
- 8.5.3 Procedural Requirements - If the Planned Conservation Development requires approval under the Subdivision Control Law, Mass. General Laws Chapter 41, the "PCD Site Plan" shall contain a plan in the form and with the contents required of a Definitive Subdivision by the Rules and Regulations Governing the Subdivision of Land in Stow. The application for a PCD Special Permit and for approval of a Definitive Subdivision plan shall be filed concurrently. To the extent permitted by law, the Planning Board shall consider both applications at the same time.
- 8.5.4 Planning Board Action - In evaluating the proposed Planned Conservation Development, the Planning Board shall consider the general objectives of this bylaw and of Planned Conservation Development in particular; the existing and probable future development of surrounding areas; and the appropriateness of the proposed layout of the lots and the proposed layout and use of the Open Land in relation to the topography, soils and other characteristics and resources of the tract of land in question. The Planning Board shall grant a Special Permit for a PCD if it finds that the PCD:
- a) protects and enhances the rural character and environment of Stow;
 - b) provides Open Land which is of a size, shape and location and has adequate access so as to benefit the town and the residents of the PCD;
 - c) is appropriate to the natural terrain of the tract of land to be developed;
 - d) provides for the convenience and safety of vehicular and pedestrian movement in the development in a manner that is compatible with the narrow, tree-lined country roads of Stow;
 - e) the application sets forth a specific plan for maintenance of all Open Land, waste disposal and drainage facilities, roadways and other improvements to be constructed in the development;
 - f) complies with all other legal requirements for a Special Permit and the Zoning Bylaw, including those for a PCD; and
 - g) is consistent with the Stow Master Plan or succeeding plan, as amended.
- 8.5.4.1 The Planning Board shall consider the recommendations of the Board of Health, the Conservation Commission and the Town's consulting engineer in making said findings.
- 8.5.4.2 The Planning Board may require changes to the "PCD Site Plan" and impose additional conditions, safeguards and limitations as it deems necessary to secure the objectives of this bylaw provision.

8.5.5 Application for a Planned Conservation Development Special Permit - Any person who desires a PCD Special Permit shall submit an application in writing which meets the requirements set forth herein and all other information which may be required by the Planning Board under its Rules and Regulations for PCD's:

8.5.5.1 Contents of an Application for a Planned Conservation Development Special Permit - The application for a PCD Special Permit shall be accompanied by a "PCD Site Plan" showing the information required by the Rules and Regulations for a PCD. The information shall include but not be limited to topography; soil characteristics as shown on the Soil Conservation Service maps; wetlands as defined by MGL Ch. 131, S.40 and the Stow Wetlands Protection Bylaw; flood plain boundary lines; existing types of vegetation; any other unique natural, historical, archaeological and aesthetic resources; the proposed layout of the lots; the proposed location of DWELLINGS, garages and other accessory STRUCTURES; the proposed location of roads, driveways, wells, septic systems and utilities; proposed finished grades; proposed landscaping; the approximate layout of lots under a conventional plan pursuant to the provisions of the Zoning Bylaw that otherwise apply without the benefit of PCD standards and under the given site limitations; the proposed layout and land use plan of the Open Land in the PCD; and the proposed form of ownership of the Open Land and any improvements proposed thereon.

8.5.6 Standards for Planned Conservation Developments

8.5.6.1 Minimum Tract Size - A Planned Conservation Development shall be permitted upon a tract of land with definite boundaries ascertained from a recorded deed(s) or recorded plan(s) which contains an area of not less than ten (10) acres in the Residential District(s).

1. The Planning Board may permit lots on directly opposite sides of a street to qualify as a single tract of land. To permit such division of a tract of land by a street, the Planning Board must find that this would enhance the purposes of the PCD bylaw provision and would not result in any more DWELLING UNITS than would be possible in accordance with the provisions of this bylaw if the lots on either side of the street were developed separately.
2. Where a tract of land is divided by a zoning district boundary between any residential district and the Recreation-Conservation District, the total area of the tract of land may be used in the PCD solely for the purpose of qualifying the tract of land as a PCD, provided that the portion of the tract of land contained within the Recreation-Conservation District is entirely preserved as Open Land within the PCD.

8.5.6.2 Number of Lots - The number of lots allowed in the PCD shall be the number of lots into which the parcel could be divided and built upon under the normally applicable dimensional requirements and land use regulations.

8.5.6.3 Permitted Uses - There shall be permitted in any Planned Conservation Development

1. Single-family DWELLINGS, single-family DWELLINGS with ACCESSORY APARTMENTS;
2. MULTI-FAMILY DWELLINGS which are designed to be consistent in character with the single-family DWELLINGS in the same development. Such MULTI-FAMILY DWELLINGS may be allowed provided

(a) no more than one (1) doorway faces the front yard area and further provided that, in terms of exterior appearance, the BUILDING is compatible in design

and, to the extent practicable, indistinguishable from the single-family DWELLINGS in the same development; and

- (b) not more than twenty-five percent (25%) of the total number of DWELLING UNITS are in MULTI-FAMILY DWELLINGS; and
- (c) there shall be no more than four (4) DWELLING UNITS in any residential BUILDING; and
- (d) the overall length of any residential BUILDING shall not exceed 200 feet.

3. Accessory uses and structures incidental to principal uses indicated above.

In its Rules and Regulations for Planned Conservation Developments, the Planning Board may establish design guidelines for DWELLINGS, require submission of architectural floor plans and side elevation plans for all proposed DWELLINGS, and impose additional conditions affecting the design and location of DWELLINGS.

8.5.6.4 Special Conditions for MULTI-FAMILY DWELLINGS -

- 1. Where MULTI-FAMILY DWELLINGS are part of the development, the Planning Board may permit the common side yard requirement to be eliminated.
- 2. Where MULTI-FAMILY DWELLINGS are allowed, the total LOT area upon which the MULTI-FAMILY DWELLING is located shall comply with the minimum LOT area requirement(s) for a single-family DWELLING for the first DWELLING unit and an additional 10,000 square feet for each additional DWELLING UNIT.
- 3. For each MULTI-FAMILY DWELLING unit in excess of one per LOT, an additional 10,000 square feet of OPEN SPACE, in addition to the OPEN SPACE required pursuant to the Planned Conservation Development Regulations, shall be provided for each DWELLING UNIT in excess of one (1) per LOT.

8.5.6.5 Prohibition of Future Development - No tract, LOT, parcel or exclusive use area for which a special permit is granted under this section shall be further subdivided, and such notation shall be shown on the plan and set forth in documents to be recorded and to run with the land.

8.5.7 Dimensional Requirements - Where the requirements of the PCD differ from or conflict with other requirements of the Bylaw, the requirements established for PCD's shall prevail. The following requirements shall be met in all PCD's. Where appropriate, the Planning Board may impose additional requirements upon the tract of land as a condition of the Special Permit.

8.5.7.1 The following minimum requirements shall be met:

- 1. Minimum frontage*100 feet
*frontage may be reduced to 50 feet if LOT is served by a common drive
- 2. Minimum front, rear and side yard setbacks 20 feet
- 3. Minimum LOT area per DWELLING 20,000 sq. ft.

8.5.7.2 No BUILDING shall be located within 100 feet of an existing public way or within 50 feet of the boundary line of the PCD or the Open Land.

- 1. To preserve the scenic qualities of Stow's roads and to encourage connection between neighborhoods, a 50-foot buffer shall be provided along the entire length of the frontage of the tract of land proposed for the PCD. Within this 50-foot buffer, the Planning Board may require a walkway that meanders in a manner to preserve public shade trees and stone walls.

- 8.5.7.3 The Planning Board shall have the authority to require larger setbacks and distances, and it may permit smaller setbacks and distances if it finds that such alternate setbacks and distances will promote the intent and purpose of PCD and will not pose public safety problems.
- 8.5.7.4 The limitation on the number of lots served by a common drive under Section 6.2 of the Bylaw shall not apply to lots within a PCD. Specifications for common drives within a PCD shall be included within the Rules and Regulations.
- 8.5.7.5 Parking shall be provided as required in Section 7 of the Zoning Bylaw, provided that no more than eight (8) parking spaces shall be grouped together.
- 8.5.8 Dimensional Requirements for Open Land - A minimum of 60% of the total area of the tract of land to be developed as a PCD shall be designated as Open Land. The following additional requirements shall apply:
 - 8.5.8.1 Except as otherwise permitted by the Planning Board, because it is in the public interest, the minimum required area of the Open Land shall not contain more than 50% wetlands, as defined in MGL Ch. 131, S.40 and the Stow Wetlands Protection Bylaw.
 - 8.5.8.2 The location and layout of the Open Land shall take into account, preserve and, where appropriate, promote such features of the tract as rivers, streams, ponds, marshes, wetlands, historic sites, wildlife refuges, unique geological or botanical areas or features, and existing or potential trails, paths and open land links.
 - 8.5.8.3 Open Land shall be planned as large contiguous parcels whenever possible and shall have a shape, dimension, character and location suitable for the designated uses of the Open Land. Strips or narrow parcels of Open Land shall be permitted only when necessary for access, or if the Planning Board finds that a vegetated buffer strip along the site's perimeter is appropriate and consistent with the purpose and intent of the PCD.
 - 8.5.8.4 If the tract of land abuts adjacent Open Land or undeveloped lots, the Open Land shall be connected in a manner that provides significant continuity with such adjacent Open Land and with such undeveloped lots.
 - 8.5.8.5 The Open Land shall be provided with adequate upland access from a way or street at least forty (40) feet wide in the form of a right of way.
- 8.5.9 Use of the Open Land - The Open Land shall be dedicated and used for conservation, historic preservation and education, outdoor education, recreation, park purposes, agriculture, horticulture, forestry, or for a combination of these uses. No other uses shall be allowed in the Open Land, except as otherwise provided herein.
 - 8.5.9.1 The proposed use of the Open Land shall be specified on a Land Use Plan and appropriate dedications and restrictions shall be part of the deed to the Open Land. The Planning Board shall have the authority to approve or disapprove particular uses proposed for the Open Land in order to enhance the specific purposes of Planned Conservation Development.
 - 8.5.9.2 The Open Land shall remain unbuilt upon, provided that an overall maximum of five percent (5%) of such land may be subject to pavement and STRUCTURES accessory to the dedicated use or uses of the Open Land, and provided that the Open Land may be subject to temporary easements for the construction, maintenance and repair of roads, utilities and sewer or drainage facilities serving the PCD or adjacent land.

- 8.5.9.3 Wells and sewage disposal areas or facilities may be located on the Open Land as permitted or regulated by Title 5 or local Board of Health regulations, if serving the PCD, and if such use, in the opinion of the Planning Board, enhances the specific purpose of Planned Conservation Development to promote better overall site planning. Septic disposal easements shall be no larger than reasonably necessary. If any portion of the Open Land is used for the purpose of a community well or leaching area, the Planning Board shall require adequate assurances and covenants that such facilities shall be maintained by the LOT owners within the PCD.
- 8.5.9.4 In addition, a portion of the Open Land may also be used for ways serving as pedestrian walks, bicycle paths and emergency access or egress to the PCD or adjacent land if such a use, in the opinion of the Planning Board, enhances the general purpose of this Bylaw and enhances better site and community planning, and if the Planning Board finds that adequate assurances and covenants exist, to ensure proper maintenance of such facilities by the owner of the Open Land.
- 8.5.10 Ownership of the Open Land - The Open Land shall be owned in common by the owners of all DWELLING UNITS in the PCD or shall be conveyed in whole or in part to:
- a) the Town of Stow and accepted by it; or to
 - b) a non-profit organization, the principal purpose of which is the conservation of open space and/or any of the purposes and uses to which the Open Land may be dedicated; or to
 - c) a corporation or trust owned, or to be owned, by the owners of lots or residential units within the PCD. If such a corporation or trust is utilized, ownership thereof shall pass with conveyances of the lots or residential units.
- 8.5.10.1 In all cases, a perpetual restriction approved by the Planning Board and enforceable by the Town of Stow shall be imposed on the use of such land, providing in substance that the land be kept in its natural state and that the land shall not be built upon or developed or used except in accordance with the provisions of PCD as set forth herein and, if applicable, as further specified in the decision of the Planning Board governing the individual PCD.
- 8.5.10.2 The proposed ownership of all Open Land shall be shown on the Land Use Plan for the PCD.
- 8.5.10.3 At the time of its conveyance the Open Land shall be free of all encumbrances, mortgages or other claims, except as to easements, restrictions and encumbrances required or permitted by this Bylaw.
- 8.5.11 Streets and Utilities - All streets and ways, whether public or private, wastewater disposal systems, drainage facilities, drinking water supplies, and utilities shall be designed and constructed in compliance with the Town of Stow Rules and Regulations Governing the Subdivision of Land, as amended, whether or not the Planned Conservation Development is a subdivision.
- 8.5.11.1 Performance Guarantee - Before the issuance of any building permits for the PCD, the petitioner shall agree to complete the required improvements specified in the decision, such construction and installation to be secured in accordance with performance guarantee requirements of the Town of Stow Rules and Regulations Governing the Subdivision of Land. Special exceptions to the Subdivision Rules and Regulations may be authorized by the Planning Board in granting a Special Permit hereunder, provided the Board determines such exceptions are in the public interest and are consistent with the purposes of Section 8.5 of the Bylaw.

- 8.5.12 Revisions and Amendments of Planned Conservation Development Special Permit - Any change in the layout of streets; in the configuration of the Open Land; in the ownership or use of the Open Land; or any other change which, in the opinion of the Planning Board, would significantly alter the character of the PCD, shall require the written approval of the Planning Board. The Planning Board may, upon its own determination, require a new Special Permit and hold a public hearing pursuant to the requirements of this bylaw if it finds that the proposed changes are substantial in nature and of public concern.

8.6 Phasing of Growth

Over the past decade, the Town of Stow has been subject to extensive growth that has strained its ability to govern. With this point in mind, the purpose of this Section is to ensure that future growth occurs in an orderly and planned manner that allows the Town time for preparation to maintain high quality municipal services for an expanded residential population while allowing a reasonable amount of additional residential growth during those preparations. The citizens of Stow insist on, take pride in, and enjoy a reputation for such high quality and reliable municipal services. Several key municipal services, including human services and schools, are currently or may soon be under considerable strain. This Section will relate the timing of residential development to the Town's ability to provide services.

In addition, this Section also proposes to encourage certain types of residential growth which reflect the values of the Town as previously expressed in its policies and appropriations.

8.6.1 Regulations:

- 8.6.1.1 Beginning on the effective date of this Section, no building permit for construction of projects involving four or more residential units shall be issued unless in accordance with the regulations of this Section.
- 8.6.1.2 DWELLING UNITS shall be considered as part of a single development if located either on a single parcel or contiguous parcels of land which have been in the same ownership at any time subsequent to the date of adoption of this Section.
- 8.6.1.3 All newly authorized residential units for which individual or several building permits have been issued pursuant to the Massachusetts State Building Code, 780 CMR shall count toward the growth rate limit of 35 DWELLING UNITS defined in Section 8.6.2.1 of the Zoning Bylaw.

8.6.2 Planned Growth Rate

- 8.6.2.1 This Section shall take effect beginning on the date of adoption by Town Meeting (December 12, 1988). Beginning on this date of adoption, the applicable permit granting authority (Planning Board, Zoning Board of Appeals or BUILDING INSPECTOR) shall not approve any residential development which would result in authorizations for more than 35 DWELLING UNITS over a 730 consecutive day (two-year) period unless (a) specifically exempted (the project has less than four residential units); or (b) it is duly authorized in a development schedule.
- 8.6.2.2 Once a development schedule is approved, building permits shall be issued in conformity with that schedule. Once authorized by the development schedule, said building permits shall be issued even if the 35-unit limit has been reached.

8.6.3 Development Schedule - Building permits for new DWELLING UNITS shall be authorized only in accordance with the following schedule:

- L. The above provisions apply to all on-site, off-site, buildings and existing housing stock made affordable with AAN provided funds.

8.8.10 Planning Board Action

- 8.8.10.1 In evaluating the proposed AAN, the Planning Board shall consider the general objectives of this Bylaw and of AAN in particular: the existing and probable future development of surrounding areas, the appropriateness of the proposed layout, the configuration, and use of the OPEN SPACE in relation to the characteristics of the tract of land in question. The Planning Board may grant a Special Permit for an AAN if it finds that the AAN meets the purposes of this Bylaw as set forth herein:

 - B. provides a useful addition to the housing inventory of Stow;
 - C. protects and enhances the rural character and environment of Stow;
 - D. provides OPEN SPACE which is of a size, shape and location and has adequate access so as to benefit the town and the residents of the AAN;
 - E. is appropriate to the natural terrain of the tract of land to be developed;

 - H. will result in the creation of DWELLING UNITS that count toward the Town's "quota" requirements as established by MGL Ch. 40B s. 20-23;
 - I. complies with all other legal requirements for a Special Permit and the Zoning Bylaw, including those for an AAN; and
 - J. is consistent with the Stow Master Plan or succeeding plan, as amended.
- 8.8.10.2 The Planning Board shall consider the recommendations of the Board of Health, the Conservation Commission and the Town's consulting engineer, and other Boards, Departments and experts, in making said findings.

8.8.10.3 The Planning Board may require changes to the "AAN Site Plan" and impose additional conditions, safeguards and limitations, as it deems necessary, to secure the objectives of this Bylaw.

8.8.11 The provisions of this Bylaw are severable from each other, and the invalidity of any provisions or section shall not invalidate any other provision or section thereof.

8.8.12 ACTIVE ADULT NEIGHBORHOOD UNITS constructed under a Special Permit issued in accordance with this section are exempt from Section 8.6, Phasing of Growth.

8.9 Inclusion of Affordable Housing

8.9.1 Purpose and Intent - The purpose of this Bylaw is to increase the supply of housing in the Town of Stow that is available to and affordable by low income or moderate income households who might otherwise have difficulty in finding homes in Stow, and to ensure that such housing is affordable over the long-term and provided in accordance with the requirements of Massachusetts General Law Chapter 40B and its implementing regulations, Stow Comprehensive Permit Policy, the Stow Master Plan, and other ongoing programs within the Town of Stow. It is intended that the AFFORDABLE DWELLING UNITS authorized under the provisions of this Bylaw be considered as Local Initiative Program (LIP) dwelling units in compliance with the requirements for the same as specified by the Department of Community Affairs, Massachusetts Department of Housing and Community Development (DHCD), or successor, or additional programs adopted by the Commonwealth or its agencies, and that said units count toward Stow's requirements under Massachusetts General Law Chapter 40B, Sections 20-23, as amended. Through multi-family units, developers will be able to increase the number of DWELLING UNITS within a development versus conventional developments. The increased number of DWELLING UNITS is intended to offset the reduced revenue from the affordable homes. In those cases where the Inclusion of Affordable Housing may conflict or be inconsistent with Section 8.5, Planned Conservation Development (PCD) or other sections of the Town of Stow Zoning Bylaw, except as otherwise expressly provided herein, the provisions of Inclusion of Affordable Housing shall be controlling.

8.9.2 Applicability

8.9.2.1 Beginning with the effective date of this Bylaw, any development or division of land, which could result in the creation of six (6) or more DWELLING UNITS, shall require a Special Permit from the Planning Board, and shall include as a condition of said permit that:

- A. At least 10% of the units be priced for QUALIFIED AFFORDABLE HOUSING PURCHASERS;
- B. The mix of AFFORDABLE DWELLING UNITS and market rate housing built in any one year be equivalent to the overall mix for the entire development;
- C. Deed restrictions, acceptable to the Town, and established in accordance with the standards of DHCD or successor or additional programs adopted by the Commonwealth or its agencies, shall be placed on the appropriate property to ensure that AFFORDABLE DWELLING UNITS created under this section shall remain AFFORDABLE DWELLING UNITS in perpetuity or for as long a period as is allowed by law.

8.9.2.2 DWELLING UNITS shall be considered as part of a single development if located either on a single parcel or contiguous parcels of land which have been in the same ownership at any time subsequent to the date of adoption of Inclusion of Affordable Housing.

8.9.3 Inclusion of Affordable Housing Regulations – The Planning Board shall adopt and maintain a set of regulations that contains the necessary policies, procedures, and requirements to implement the provisions of this Section.

8.9.4 Provision of AFFORDABLE DWELLING UNITS - AFFORDABLE DWELLING UNITS required under Section 8.9.2.1 may be provided in any one or combination of methods described below, subject to the approval of the Planning Board:

The Planning Board may require, prior to acceptance of land by the Town, satisfaction of the requirements of this Bylaw, that the applicant submit appraisals of the land in question, as well as other data relevant to the determination of value;
- D. For fractional AFFORDABLE DWELLING UNITS, the applicant may round up to the next whole number of units or choose to pay equivalent fees-in-lieu of units (see Section 8.9.7) proportionate to the percentage of the unit required;
- E. Preservation of existing DWELLING UNITS as AFFORDABLE DWELLING UNITS through the purchase of deed restrictions.

8.9.5.1. Allowed types of AFFORDABLE DWELLING UNITS:

- A. Single-family DWELLINGS;

 - ii. there shall be no more than four (4) DWELLING UNITS in any residential BUILDING; and
 - iii. the total number of MULTI-FAMILY DWELLINGS shall not exceed 10% of the lots in the development; and

With the approval of the Planning Board, as an alternative to the requirements of Section 8.9.4.A, an applicant subject to the Bylaw may develop, construct or otherwise provide AFFORDABLE DWELLING UNITS equivalent to those required by Section 8.9.2.1 off-site. To the maximum extent practicable, all requirements of this Bylaw that apply to on-site provision of AFFORDABLE DWELLING UNITS shall apply to provision of off-site AFFORDABLE DWELLING UNITS. - 8.9.6.1. Calculation of fees-in-lieu of units. The applicant for development subject to this Bylaw may pay fees-in-lieu of the construction. For the purposes of this Bylaw, the fees-in-lieu of the construction or provision of each AFFORDABLE DWELLING UNIT is determined to be three (3) times 80% of the median income for a household of four (4), as reported by the most recent information from the United States Department of Housing and Urban Development (HUD) and/or the Massachusetts Department of Housing and Community Development (DHCD).

SECTION 9

ADMINISTRATION

9.1 Board of Appeals

The Board of Appeals under this Bylaw shall be the existing Board of Appeals established in accordance with Section 12 of Chapter 40A and Article 3, Section 12 of the General Bylaws of the Town. The Board of Appeals shall constitute the permit granting authority and the special permit granting authority, except as otherwise provided in the Bylaw, and shall exercise the powers contained in Chapter 40A, Section 14 of the General Laws, as amended.

9.2 Special Permits

- 9.2.1 Special Permit Granting Authority - Certain uses are designated in the Bylaw as requiring a special permit. The Board of Appeals, the Planning Board or the Board of Selectmen are herein designated as a Special Permit Granting Authority for specific purposes. Wherever specific designation is not made, the Planning Board shall be deemed the Special Permit Granting Authority. The Board of Appeals, the Planning Board or the Board of Selectmen may grant special permits for such designated uses as authorized in this Bylaw and shown in the Table of Principal Uses.
- 9.2.2 Rules and Regulations and Fees - Each Special Permit Granting Authority shall promulgate, adopt and, from time to time, amend rules and regulations, not inconsistent with the provisions of this Bylaw or Chapter 40A of the General Laws or other applicable provision of the General Laws, and shall file a copy of said rules and regulations with the Town Clerk. Such rules and regulations shall prescribe as a minimum:
- 9.2.2.1 the size, form, contents, style and number of copies of plans and specifications;
 - 9.2.2.2 the town boards or agencies from which the Special Permit Granting Authority may require reports; and
 - 9.2.2.3 fees sufficient to cover reasonable costs incurred by the Town in the review and administration of special permits.
- 9.2.3 Petition - Any person seeking to obtain a special permit (hereinafter referred to as the Petitioner) shall file a petition with the Town Clerk, and the required number of copies of said petition, including the date and time of filing certified by the Town Clerk, shall be filed forthwith by the petitioner with the Special Permit Granting Authority. Each petition shall be completed on the proper forms and accompanied by the information required by the Special Permit Granting Authority as set forth in its rules and regulations.
- 9.2.4 Reports from Town Boards or Agencies - The Special Permit Granting Authority shall transmit forthwith one copy each to the Planning Board, Zoning Board of Appeals, BUILDING INSPECTOR, Board of Health, Conservation Commission, Board of Selectmen, Highway Department, Fire Department, Police Department, Historical Commission and other such board or agency deemed necessary by the Special Permit Granting Authority for their written reports. Failure of any such board or agency to make a recommendation within thirty-five (35) days of receipt of said petition shall be deemed lack of opposition by said board or agency in accordance with the provisions of Chapter 40A of the General Laws. However, additional comments from any such board or agency may be received prior to the close of the public hearing.

- 9.2.5 Public Hearing and Decision - The Special Permit Granting Authority shall hold a public hearing after proper notification in accordance with the provisions of Chapter 40A of the General Laws no later than sixty-five (65) days after the filing of a petition. As all uses requiring a special permit also require site plan approval, one public hearing shall be deemed sufficient for both the special permit petition and the application for site plan approval. The decision of the Special Permit Granting Authority shall be made within ninety (90) days following the date of the public hearing. The Special Permit Granting Authority shall have the power to continue a public hearing if it finds that such continuance is necessary to obtain additional information in order to make an informed decision. The required times for a public hearing and said action may be extended by written agreement between the petitioner and the Special Permit Granting Authority, a copy of which is filed with the Town Clerk.
- 9.2.6 Mandatory Findings by Special Permit Granting Authority - The Special Permit Granting Authority shall not issue a special permit unless without exception it shall find that the proposed use and development:
- 9.2.6.1 is in harmony with the purpose and intent of this Bylaw;
 - 9.2.6.2 will not be detrimental or injurious to abutting properties or ways, the neighborhood, community amenities or the Town of Stow;
 - 9.2.6.3 is appropriate for the site for which the petition is submitted and is related harmoniously to the terrain and to the use, scale and proportions of existing and proposed BUILDINGS in the immediate vicinity that have functional or visual relationship to the proposed use;
 - 9.2.6.4 includes sufficient mitigating measures which shall be implemented as part of the special permit for any adverse effects noted in the Development Impact Statement, reports from town boards and agencies, reports from consultants and public hearings;
 - 9.2.6.5 will result in no pollution or contamination of the GROUND WATER, a GROUND WATER recharge area, a well, pond, stream, watercourse or inland wetland;
 - 9.2.6.6 will result in no significant effect on the "level of service" (LOS) of the town roads or intersections of these roads. A significant effect on level of service is a projected use of greater than five percent (5%) of the reserve capacity of a road segment or turning movement by the proposed use at the completion of its development. Reserve capacity calculations are to be done by a registered professional engineer using accepted methods of traffic analysis and shall include both projected growth in traffic during the period of development and projected traffic from other uses and developments which have applied for approval under the Zoning Bylaw prior to the close of the public hearing;
 - 9.2.6.7 will result in no significant effect on level of service for any service provided by the Town, including fire, police and ambulance. Proof of no significant effect is the lack of need for the Town to add equipment and/or staff specifically due to the development;
 - 9.2.6.8 will result in no redirection of existing surface water runoff such that there would be material impact on abutting parcels or downstream properties unless an appropriate easement is obtained to an existing watercourse;
 - 9.2.6.9 will result in no transport by air or water of erodible material beyond the boundary line of the LOT (See also Section 3.8. Use Regulations, General);
 - 9.2.6.10 will provide adequate provision for pedestrian traffic; and

9.2.6.11 will comply with all requirements of Site Plan Approval and all other applicable requirements of this Bylaw.

9.2.7 Special Permit Conditions - The Special Permit Granting Authority shall impose such conditions, safeguards and limitations as it deems appropriate to protect abutting properties or ways, the neighborhood, community amenities or the Town of Stow including, but not limited to:

9.2.7.1 Limitation of size, number of occupants, method and time of operation, lighting, signage and extent of facilities;

9.2.7.2 Dimensional setback requirements greater than the minimum required by this Bylaw;

9.2.7.3 Modification of the exterior features or appearances of the STRUCTURE(S);

9.2.7.4 Screening of parking areas or other parts of the premises from adjoining premises or from the STREET by specified walls, FENCES, plantings or other devices, including a program of maintenance for said screening which will continue for the life of the permitted use;

9.2.7.5 Continuing provision for adequate and legal disposal of all solid waste, sewage, REFUSE and any other potential pollutant generated by any use;

9.2.7.6 A program of snow storage or removal to continue for the life of the permitted project;

9.2.7.7 Inclusion of measures to ensure GROUND WATER protection, and to ensure the proposed development will not redirect existing surface water runoff such that there would be adverse impact on abutting parcels or downstream properties unless an appropriate easement is obtained to an existing watercourse;

9.2.7.8 Provision of easements, restrictions and other means enabling other uses in accordance with the Bylaw;

9.2.7.9 Requirement of off-street parking and other special features;

9.2.7.10 Regulation of number, design and location of access drives, drive-up windows and other traffic measures;

9.2.7.11 Provision for the safety and convenience of pedestrian traffic;

9.2.7.12 Requirement for performance bonds or other security; and

9.2.7.13 Installation and certification of mechanical or other devices to limit present or potential hazard to human health, safety, welfare or the environment resulting from smoke, odor, particulate matter, toxic matter, fire or explosive hazard, glare, noise, vibration or any other objectionable impact generated by any given use of land. If said devices are of a new technology or design not in general use, it shall be the petitioner's responsibility to provide sufficient information to verify the safety and efficacy of said technology or devices to the satisfaction of the Town of Stow through all the appropriate boards.

9.2.7.14 A sidewalk, walkway or path shall be required along the entire frontage of a LOT. The Special Permit Granting Authority may also require other walkways and paths as it deems necessary to accommodate the safe movement of pedestrians and bicyclists.

a) Said sidewalks, walkways or paths may be located on the LOT or within the layout of the STREET, with the Town's permission, depending on the nature of the work and upon obtaining whatever permits are required, and shall be designed to connect with existing sidewalks on adjacent LOTS, if any.

b) If a sidewalk, walkway or path is authorized under a Special Permit to lead onto an

adjacent LOT which is not subject to such Special Permit, no separate Special Permit or Site Plan Approval shall be required for the adjacent LOT in order to permit the construction of a sidewalk, walkway, or path.

- c) Sidewalks, walkways or paths shall be designed and constructed according to standards established in the Town of Stow Subdivision Rules and Regulations, except when otherwise approved by the Special Permit Granting Authority.
- d) Sidewalks, walkways or paths constructed on a LOT under a Special Permit shall be OPEN SPACE.
- e) The Special Permit Granting Authority may waive the sidewalk requirement provided it can find that one of the following circumstances exist:
 - i. An alternative off-site improvement is preferable to encourage pedestrian circulation and bicycle use and to help minimize traffic impacts from a proposed development. In such cases, the alternative off-site improvements shall be located on ways and land owned or controlled by the Town of Stow, or in other locations where the property owner allows and agrees to the improvements. The cost of the required off-site improvements shall be kept in reasonable proportion to the anticipated pedestrian and vehicular traffic from the development.
 - ii. The applicant has suggested a contribution to the Stow Sidewalk Fund that is acceptable to the Special Permit Granting Authority in lieu of constructing the required sidewalk or an alternative off-site improvement.
 - iii. A 15' wide easement for a future sidewalk, walkway or path has been granted to the Town over the frontage of a Hammerhead LOT.
- f) The property that is the subject of the Special Permit for a Single-Family DWELLING, Single-Family DWELLING with ACCESSORY APARTMENT, Duplex DWELLING, Conversion to two Family DWELLING, or a Bed & Breakfast Home or Establishment are exempt from this requirement.

9.2.8 Time Limitation on Special Permit - A special permit shall lapse if a substantial use thereof has not commenced except for good cause or, in the case of a permit for construction, if construction has not commenced except for good cause within a period of time to be specified by the Special Permit Granting Authority, not to exceed two years from the date of grant thereof, in accordance with Chapter 40A, Section 9 of the General Laws.

9.2.8.1 A reasonable extension of said time, but not more than two additional years, may be granted by the Special Permit Granting Authority after a public hearing has been held where good cause is shown. Any request to the Special Permit Granting Authority for such extension of time shall be submitted to the Special Permit Granting Authority and a copy to the Stow Town Clerk at least sixty (60) days prior to the date when the special permit is due to lapse. Failure to submit such a request as prescribed herein shall be sufficient cause for the Special Permit Granting Authority to deny the requested time extension.

9.2.9 Maintenance of Special Permit - A periodic review, at least annually, shall be conducted by the Special Permit Granting Authority to ensure compliance with the conditions imposed within the special permit. The BUILDING INSPECTOR shall assist the Special Permit Granting Authority in the review. Notification of any deficiencies found through said review shall be forwarded to the property owner and special permit holder. Failure to rectify said deficiencies may result in rescission of the special permit or other zoning

enforcement proceedings. Upon determination by the Special Permit Granting Authority that the conditions of the special permit have been met, no such further review shall be conducted.

9.2.10 Effective Date of Special Permit - No special permit or any modification or extension thereof shall take effect until a copy of the decision has been recorded in the Middlesex County South Registry of Deeds or Land Court. Such decision shall bear the certification of the Town Clerk that twenty (20) days have elapsed after the decision has been filed in the office of the Town Clerk and no appeal has been filed, or that if such an appeal has been filed, it has been dismissed or denied.

9.2.10.1 No construction activity, including site alteration, for any use or STRUCTURE authorized by the special permit shall take place on the proposed development site until all relevant documents including easements are approved, executed, filed with the appropriate Special Permit Granting Authority and recorded in the Middlesex County South Registry of Deeds or Land Court.

9.3.1 Site Plan Approval Granting Authority - Certain uses are designated in the Table of Principal Uses as requiring site plan approval. The Board of Appeals, Planning Board or the Board of Selectmen may grant site plan approval in accordance with the standards set forth in this Bylaw. Wherever a specific designation is not made, the Planning Board shall be deemed the Site Plan Approval Granting Authority.

9.3.2 Rules and Regulations and Fees - Each board designated as a Site Plan Approval Granting Authority in the Table of Principal Uses, or otherwise so designated in the Bylaw, shall promulgate, adopt and, from time to time, amend rules and regulations, not inconsistent with the provisions of the General Laws, and shall file a copy of said rules and regulations with the Town Clerk. - 9.3.4 The Site Plan Approval Granting Authority may waive any or all requirements of site plan approval process for external enlargements or alterations of less than 10% or five hundred (500) square feet, whichever is less, of the existing FLOOR AREA if the Site Plan Approval Granting Authority finds that the requirements of this Bylaw have been met.
- 9.3.5 Purpose - The purpose of site plan approval is to ensure that new construction, alterations of existing STRUCTURES and parking areas/LOT, and changes in use are designed in a manner which complies with the provisions of the Bylaw as to demonstrate protection of visual and environmental qualities and property values of the Town, and assurances of adequate drainage of surface water and safe vehicular and pedestrian access, and all other requirements of the Bylaw.

However, additional comments from any such board or agency may be received prior to the close of the public hearing.
- 9.3.8 Public Hearing and Decision - The Site Plan Approval Granting Authority shall hold a public hearing no later than sixty-five (65) days after the filing of an application. If the site plan approval is sought in conjunction with a special permit, one hearing and decision shall suffice for both site plan approval and special permit. The decision of the Site Plan Approval Granting Authority shall be made within ninety (90) days following the date of the public hearing. The Site Plan Approval Granting Authority shall have the power to continue a public hearing if it finds that such continuance is necessary to gather additional information in order to make an informed decision. Such continuance shall not automatically extend the required time limits set forth herein. The required time limits for

a public hearing and/or decision may be extended by written agreement between the applicant and the Site Plan Approval Granting Authority. A copy of such agreement shall be filed in the office of the Town Clerk. Failure by the Site Plan Approval Granting Authority to take final action within said ninety (90) days or extended time, if applicable, shall be deemed to be a grant of the site plan approval.

Before the granting of any site plan approval, the Site Plan Approval Granting Authority shall determine compliance with the following:
