Specifications may be developed and sent to contractors with a written proposal required to be considered for a job. Contractors may be asked to provide a quote on an hourly basis with an additional amount for supplies and materials or a total cost for the job may be requested. Certain circumstances may require site visits. In all cases, the contractor **must** adhere to the Contract Rates and the Prevailing Wage laws. Any one job with labor costing over \$50,000 will not be covered by this contract and will be Bid separately.

Term of Contract and Options to Renew

The initial term of this contract will be a period of one (1) year beginning on July 1, 2023, when the vendor is awarded a contract and ending on June 30, 2024. There will be two (2) one (1) year option years. The end date of this contract will be June 30, 2026.

Approximately 30 days prior to the end of each option, the Town of Stow will send a letter to the contractors requesting to exercise the option to renew the contract along with the updated wage rates.

Contract and Performance Specifications

Where required by law, contractors must possess a valid license/registration to perform services in the Commonwealth of Massachusetts. A copy of any required license/registration must be submitted with the Bidder's response, for each employee.

Contractors must have at least five (5) years of relevant experience in their particular trade(s) prior to responding to this Bid unless a waiver is granted. Bidders with less than five years of experience must submit, with their response, a written request to be exempt from this requirement including a statement explaining why they should be exempt.

Any and all work performed throughout the duration of the contract must be guaranteed by the contractor to be completed in a workmanship-like manner and according to applicable codes and industry-accepted standards. Unless otherwise stated in specifications for a particular job, the contractor will supply all labor, equipment, materials, parts and supplies necessary to complete a service. There will be no compensation for mileage or travel time. Billable hours shall commence upon arrival at the job site. The Town of Stow will not pay for any minimum amount of hours and will only pay for actual time on site. The contractor will be responsible for securing any and all necessary permits required prior to commencing work on any job. Emergencies may require 24 hour, 7 day a week availability of a service. Please respond in your Bid if you are unable to abide by this.

“Call Backs” or repeated requests for the same service to a particular instrument, controller or equipment shall determine that the contractor’s services are ineffective. Repeated “call backs” may be grounds for default action by the Town of Stow. If the contractor is deemed responsible for the “call back”, there will not be an additional charge to the Town of Stow.

Contractors must respond to the Town, by phone, in a timely manner (within 8 hours) after receiving a service request call. If service is an emergency, contractor must respond by phone within one (1) hour and work must be started within four (4) hours. A site visit to the building must be scheduled in a reasonable period, which must be agreed upon by the requesting representative of the Town. This should normally occur within 48 hours, but as needs and circumstances will vary, it is expected that a contractor will accommodate the needs of the Town. Failure on a contractor’s part to keep appointments may result in termination of the contract. All quotes must be provided at no cost to the Town.

Services solicited through this BID are subject to the Massachusetts Prevailing Wage Laws. Applicable Prevailing Wage Rates are issued with this BID. These will become a part of any contract resulting from this BID. These wage rates will be valid for the duration of the contract including all renewals. It is the responsibility of the contractor to adhere to the Prevailing Wage Laws and all requirements. The contractor must submit a Weekly Payroll Report Form to the Town of Stow.

It is intended that the Contractor shall accomplish the majority of work during normal business hours and on a straight time basis. Work shall not be accomplished on an overtime basis unless prior approval has been obtained from the Town. Standard hours of work shall be Monday-Friday 6:00 a.m. until 5:30 p.m.

All work is to be quality work and shall be performed according to the standards of the industry and according to the plans, directions and instructions as presented by the authorized representatives of the Town of Stow and must meet all state and town Building Codes.

The hourly rates reflect the amount a contractor will charge per hour only - not per hour per person. Only one tradesman shall be assigned to work on a job. Prior permission must be received before the contractor can assign more than one worker per job, including apprentices/helpers. The Town reserves the right to question whether additional personnel are warranted on a particular job based upon each job quote/proposal and performance status. Special attention will be given to allow for assistance when needed, or an unexpected parts acquisition is needed during a job to contain costs. However, the contractor must arrive at any routine job that he has quoted prepared with the appropriate personnel, equipment and supplies to perform the project with minor off-site time and travel. It is imperative that only necessary personnel are sent for each specific job.

The Contractor shall only use trained and licensed personnel who are directly employed and supervised by the Contractor unless prior approval is obtained. The Contractor shall not subcontract or sublet any portion of the work without the written consent of the Town.

The Town of Stow reserves the right to inspect any and all work performed and in progress under these contracts. Any omission or failure on the part of the Town of Stow’s representative to disapprove or reject inferior or defective work or materials shall not be construed to be an acceptance of such work or material. If any defective work or material is found during

inspection, the contractor shall remove or repair, at his/her own expense, such defective work or material rejected and shall rebuild and/or replace it without extra charge.

All materials and equipment provided under the contract shall be listed and labeled for the purpose intended. All work provided under this contract shall have, as a minimum, a one (1) year warranty from the date of final acceptance thereof against any latent defects, design, materials, workmanship and installation.

Contractor shall provide a minimum written one (1) year warranty for equipment installed during the contract period. The Contractor warrants that, unless otherwise specified, all materials and equipment, incorporated in the work under the Contract shall be new, first class, and in accordance with the Contract Documents. The Contractor further warrants all workmanship shall be first class and in accordance with the Contract Documents and shall be performed by persons qualified in their respective trades. Work not conforming to these warranties shall be deemed unacceptable and will not be paid.

The Contractor must attach a list of all names, license numbers, license expiration dates, type of license and year of experience of his/her qualified technicians.

Contractor may be required to fill out CORI checks prior to any work in the Town.

Awarding Authority: Town of Stow
Contract Number: B03-2023 **City/Town:** STOW
Description of Work: Repair and service all electrical systems at all town buildings in Stow
Job Location: 380 Great Road

Information about Prevailing Wage Schedules for Awarding Authorities and Contractors

- The wage rates will remain in effect for the duration of the project, except in the case of multi-year public construction projects. For construction projects lasting longer than one year, awarding authorities must request an updated wage schedule no later than two weeks before the anniversary of the date the contract was executed by the awarding authority and the general contractor. For multi-year CM AT RISK projects, the awarding authority must request an annual update no later than two weeks before the anniversary date, determined as the earlier of: (a) the execution date of the GMP Amendment, or (b) the execution date of the first amendment to permit procurement of construction services. The annual update requirement is not applicable to 27F "rental of equipment" contracts. **The updated wage schedule must be provided to all contractors, including general and sub-contractors, working on the construction project.**
- This wage schedule applies only to the specific project referenced at the top of this page and uniquely identified by the "Wage Request Number" on all pages of this schedule.
- An Awarding Authority must request an updated wage schedule if it has not opened bids or selected a contractor within 90 days of the date of issuance of the wage schedule. For CM AT RISK projects (bid pursuant to G.L. c.149A), the earlier of: (a) the execution date of the GMP Amendment, or (b) the bid for the first construction scope of work must be within 90-days of the wage schedule issuance date.
- The wage schedule shall be incorporated in any advertisement or call for bids for the project as required by M.G.L. c. 149, § 27. The wage schedule shall be made a part of the contract awarded for the project. The wage schedule must be posted in a conspicuous place at the work site for the life of the project in accordance with M.G.L. c. 149 § 27. The wages listed on the wage schedule must be paid to employees performing construction work on the project whether they are employed by the prime contractor, a filed sub-bidder, or a sub-contractor.
- Apprentices working on the project are required to be registered with the Massachusetts Division of Apprentice Standards (DAS). Apprentices must keep their apprentice identification card on their persons during all work hours on the project. An apprentice registered with DAS may be paid the lower apprentice wage rate at the applicable step as provided on the prevailing wage schedule. **Any apprentice not registered with DAS regardless of whether they are registered with another federal, state, local, or private agency must be paid the journeyworker's rate.**
- Every contractor or subcontractor working on the construction project must submit weekly payroll reports and a Statement of Compliance directly to the awarding authority by mail or email and keep them on file for three years. Each weekly payroll report must contain: the employee's name, address, occupational classification, hours worked, and wages paid. Do not submit weekly payroll reports to DLS. For a sample payroll reporting form go to <http://www.mass.gov/dols/pw>.
- Contractors with questions about the wage rates or classifications included on the wage schedule have an affirmative obligation to inquire with DLS at (617) 626-6953.
- Contractors must obtain the wage schedules from awarding authorities. Failure of a contractor or subcontractor to pay the prevailing wage rates listed on the wage schedule to all employees who perform construction work on the project is a violation of the law and subjects the contractor or subcontractor to civil and criminal penalties.
- Employees not receiving the prevailing wage rate set forth on the wage schedule may file a complaint with the Fair Labor Division of the office of the Attorney General at (617) 727-3465.
