STEP 9

After you click on the dog's name (step 7) - the info on file (for that dog) will show on a screen like this one.

> You can make changes to many fields. If you see errors in any fields you do not have access to—please email us a follow up note. (after completing the licensing process) townclerk@stow-ma.gov

IF YOU NO LONGER HAVE A DOG(S)

Currently there is a glitch in the system & you <u>can't</u> use the STATUS field to let us know your dog has moved, been sold, or sadly passed away. The system will still try to charge you \$10 for the dog if you submit the change. Instead, please only license the dogs who are still active and email us the information for the dog(s) you no longer have. townclerk@stow-ma.gov

HAVING OTHER ISSUES? Call (508) 381-5455

The system may "kick you out" if you are trying to upload multiple/large files. The most important file for us to have is a current rabies certificate. You can email us the rabies/neuter/spay certs if the system won't accept yours. townclerk@stow-ma.gov

Click <u>add to cart</u> when you are done making updates. Add more dogs if necessary. Follow payment instructions.

STEP 10

Thank you for using the online licensing system! Turn around time is usually a week **except at the beginning of each year** when we are licensing over 1200 dogs who live in Stow. We appreciate your patience!
