

# **TOWN OF STOW**

## **RFQ FY23-01-05H**

### **Addendum #1**

#### **Notice to All Prospective Bidders/Quoters**

**Addendum #1 RELEASED (March 27<sup>th</sup>, 2023)**

**Bids Due By: Friday, April 7<sup>th</sup>, 2023**

The following changes are made to the documents RFQ FY22-01-05H:

1. None

Questions Received by this office and answers to the questions provided:

1. Is there a weight limit for the river overpass on Delaney Street? If so, what is the limit?

No, there is no weight limit for the Delaney Street culvert.

2. Is the contractor responsible for keyways on driveways, side streets and sidewalks abutting Delaney Street?

We do not anticipate needing keyways. If there are issues for residents at the conclusion of the project, the Highway Department will evaluate – if they can be addressed by our department, we will do so; if not, contractor will be notified of need to fix joints. Additionally, there are no sidewalks on Delaney Street so that will be a nonfactor.
